G2GO M2000
user guide
G2G0 M2000 User Guide

This manual is based on the production version of the Kyocera M2000 phone. Software changes may have occurred after this printing. Kyocera reserves the right to make changes in technical and product specifications without prior notice.

The Kyocera Communications Inc. (“KCI”) products described in this manual may include copyrighted KCI and third party software stored in semiconductor memories or other media. Laws in the United States and other countries preserve for KCI and third party software providers certain exclusive rights for copyrighted software, such as the exclusive rights to distribute or reproduce the copyrighted software. Accordingly, any copyrighted software contained in the KCI products may not be modified, reverse engineered, distributed or reproduced in any manner not permitted by law.

Furthermore, the purchase of the KCI products shall not be deemed to grant—either directly or by implication, estoppel, or otherwise—any license under the copyrights, patents, or patent applications of KCI or any third party software provider, except for the normal, non-exclusive royalty-free license to use that arises by operation of law in the sale of a product.

IC Notice

Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device. The term “IC” before the radio certification number only signifies that Industry Canada technical specifications were met.

• This Class B digital apparatus complies with Canadian ICES-003.

FCC Notice

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation. To maintain compliance with FCC RF exposure guidelines, if you wear a handset on your body, use the Kyocera Communications Inc. (KCI) supplied and approved accessory designed for this product. Using accessories that are not supplied or approved by KCI may violate FCC RF exposure guidelines.

Other accessories used with this device for body-worn operations must not contain any metallic components and must provide at least 15 mm separation distance including the antenna and the user’s body.

THIS MODEL PHONE MEETS THE GOVERNMENT’S REQUIREMENTS FOR EXPOSURE TO RADIO WAVES.

Your wireless phone is a radio transmitter and receiver. It is designed and manufactured to not exceed the emission limits for exposure to radio frequency (RF) energy set by the Federal Communications Commission of the U.S. Government. These limits are part of comprehensive guidelines and establish permitted levels of RF energy for the general population. The guidelines are based on standards that were developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. The standards include a substantial safety margin designed to assure the safety of all persons, regardless of age and health.
The exposure standard for wireless mobile phones employs a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit set by the FCC is 1.6 W/kg.*

Tests for SAR are conducted using standard operating positions specified by the FCC with the phone transmitting at its highest certified power level in all tested frequency bands.

Although the SAR is determined at the highest certified power level, the actual SAR level of the phone while operating can be well below the maximum value. This is because the phone is designed to operate at multiple power levels so as to use only the power required to reach the network. In general, the closer you are to a wireless base station antenna, the lower the power output.

Before a phone model is available for sale to the public, it must be tested and certified to the FCC that it does not exceed the limit established by the government-adopted requirement for safe exposure. The tests are performed in positions and locations (e.g., at the ear and worn on the body) as required by the FCC for each model.

Body-worn measurements differ among phone models, depending upon availability of accessories and FCC requirements. While there may be differences between the SAR levels of various phones and at various positions, they all meet the government requirement for safe exposure.

The FCC has granted an Equipment Authorization for this model phone with all reported SAR levels evaluated as in compliance with the FCC RF emission guidelines. SAR information on this model phone is on file with the FCC and can be found under the Display Grant section www.fcc.gov/oet/ea after searching on the FCC ID: OVF-K4802.

Additional information on SAR can be found on the Cellular Telecommunications and Internet Association (CTIA) web-site at www.ctia.org.

* In the United States and Canada, the SAR limit for mobile phones used by the public is 1.6 watts/kg (W/kg) averaged over one gram of tissue. The standard incorporates a substantial margin of safety to give additional protection for the public and to account for any variations in measurements.

Bluetooth® Certification

For information about M2000 Bluetooth Certification, visit the Bluetooth Qualification Program Web site at www.bluetooth.org/tpg/listings.cfm.

Caution

The user is cautioned that changes or modifications not expressly approved by the party responsible for compliance could void the warranty and user’s authority to operate the equipment.

Optimize your Phone’s Performance

Use the instructions in this guide to learn how to optimize the performance and life of your phone and battery.

Air Bags

If you have an air bag, DO NOT place installed or portable phone equipment or other objects over the air bag or in the air bag deployment area. If equipment is not properly installed, you and your passengers risk serious injury.

Medical devices

Pacemakers—Warning to pacemaker wearers: Wireless phones, when in the 'on' position, have been shown to interfere with pacemakers. The phone should be kept at least six (6) inches away from the pacemaker to reduce risk.

The Health Industry Manufacturers Association and the wireless technology research community recommend that you follow these guidelines to minimize the potential for interference.

- Always keep the phone at least six inches (15 centimeters) away from your pacemaker when the phone is turned on.
- Do not carry your phone near your heart.
- Use the ear opposite the pacemaker.
- If you have any reason to suspect that interference is taking place, turn off your phone immediately.
Hearing aids—Some digital wireless phones may interfere with hearing aids. In the event of such interference, you may want to consult your service provider or call the customer service line to discuss alternatives.

Other medical devices—If you use any other personal medical device, consult the manufacturer of the device to determine if it is adequately shielded from external RF energy. Your physician may be able to help you obtain this information.

In health care facilities—Turn your phone off in health care facilities when instructed. Hospitals and health care facilities may be using equipment that is sensitive to external RF energy.

Potentially unsafe areas

Posted facilities—Turn your phone off in any facility when posted notices require you to do so.

Aircraft—FCC regulations prohibit using your phone on a plane that is in the air. Turn your phone off or switch it to Airplane Mode before boarding aircraft.

Vehicles—RF signals may affect improperly installed or inadequately shielded electronic systems in motor vehicles. Check with the manufacturer of the device to determine if it is adequately shielded from external RF energy.

Blasting areas—Turn off your phone where blasting is in progress. Observe restrictions, and follow any regulations or rules.

Potentially explosive atmospheres—Turn off your phone when you are in any area with a potentially explosive atmosphere. Obey all signs and instructions. Sparks in such areas could cause an explosion or fire, resulting in bodily injury or death. Areas with a potentially explosive atmosphere are often, but not always, clearly marked.

They include:
- fueling areas such as gas stations
- below deck on boats
- transfer or storage facilities for fuel or chemicals
- vehicles using liquefied petroleum gas, such as propane or butane
- areas where the air contains chemicals or particles such as grain, dust, or metal powders
- any other area where you would normally be advised to turn off your vehicle engine

Use with care

Use only in normal position (to ear). Avoid dropping, hitting, bending, or sitting on the phone.

Avoid magnetic environments

Keep the phone away from magnets which can cause improper functioning of the phone.

Keep your phone dry

Keep the phone dry. Damage can result if the phone gets wet. Water damage is not covered under warranty.

Resetting the phone

If the screen seems frozen and the keypad does not respond to keypresses, reset the phone by completing the following steps:

1. Remove the battery cover.
2. Remove and replace the battery.

If the problem persists, return the phone to the dealer for service.

Accessories

Use only Kyocera-approved accessories with Kyocera phones. Use of any unauthorized accessories may be dangerous and will void the phone warranty if said accessories cause damage or a defect to the phone.
Radio Frequency (RF) energy
Your telephone is a radio transmitter and receiver. When it is on, it receives and sends out RF energy. Your service provider’s network controls the power of the RF signal. This power level can range from 0.006 to 0.6 watts.
In August 1996, the U.S. Federal Communications Commission (FCC) adopted RF exposure guidelines with safety levels for hand-held wireless phones. These guidelines are consistent with the safety standards previously set by both U.S. and international standards bodies in the following reports:
• ANSI C95.1 (American National Standards Institute, 1992)
• ICNIRP (International Commission on Non-Ionizing Radiation Protection, 1996)
Your phone complies with the standards set by these reports and the FCC guidelines.

E911 mandates
Where service is available, this handset complies with the Phase I and Phase II E911 Mandates issued by the FCC.

Hearing Aid Compatibility (HAC) with Mobile Phones
Some mobile phones and hearing devices (hearing aids and cochlear implants), when used together, result in buzzing, humming, or whining noises detected by the user.
Some hearing devices are more immune than others to this interference noise, and phones also vary in the amount of interference they generate.
The wireless telephone industry has developed ratings for some of their mobile phones, to assist hearing device users in finding phones that may be compatible with their hearing devices. Not all phones have been rated.
Phones that are rated have the rating on their box or a label on the box. The ratings are not guarantees and results will vary depending on the user’s hearing device and hearing loss. If your hearing device happens to be vulnerable to interference, you may not be able to use a rated phone successfully. Trying out the phone with your hearing device is the best way to evaluate it for your personal needs.

M-Ratings—Phones rated M3 or M4 meet FCC requirements and are likely to generate less interference to hearing devices than phones that are not labeled. M4 is the better/higher of the two ratings.

T-Ratings—Phones rated T3 or T4 meet FCC requirements and are likely to be more usable with a hearing device’s telecoil (“T Switch” or “Telephone Switch”) than unrated phones. T4 is the better/higher of the two ratings. (Note that not all hearing devices have telecoils in them.)

Hearing devices may also be measured for immunity to this type of interference. Your hearing device manufacturer or hearing health professional may help you choose the proper rating for your mobile phone. The more immune your hearing aid is, the less likely you are to experience interference noise from mobile phones.

For more information about hearing aid compatibility, visit the FCC’s Consumer & Governmental Affairs Bureau Web site at www.fcc.gov/cgb/dro.

1 Get Started

Phone Battery

Install the Battery
1. With the back of the phone facing you, press on the back cover and slide it to the bottom of the phone.
2. Lift the back cover from the bottom to remove.
3. Place the battery in the phone casing with the metal contacts toward the top of the phone.
4. Align the back cover side tabs with the slots on each side of the phone.
5. Slide the back cover to the top of the phone until it is securely in place.

Note: Before removing the battery, make sure to power off the phone.

Charge the Battery

You must have at least a partial charge in the battery to make or receive calls.

To charge the battery:
1. Remove the rubber USB cover and connect the AC adapter to the microUSB jack on the side of the phone.
2. Plug the adapter into a wall outlet.

The battery icon in the upper-right corner of the screen shows whether the phone is:
- Charging (animated icon)
- Partially charged
- Fully charged

You can safely recharge the battery at any time, even if it has a partial charge.

Warning: The battery does not charge if you use the phone while it is connected to an AC adapter.
Battery Safety Guidelines
• Do not disassemble or open the battery.
• Do not crush, bend, deform, puncture, or shred the battery.
• Do not attempt to insert foreign objects into the battery.
• Do not immerse the battery or expose it to water or other liquids. Even if a battery appears to dry out and operate normally, internal parts can slowly corrode and pose a safety hazard.
• Always keep the battery between 15 °C and 25 °C (59 °F and 77 °F). Do not expose the battery to extremes of temperature (heat or cold), fire, or other hazards such as a cooking surface, iron, or radiator.
• Never use any damaged battery.
• Only use the battery for its intended phone.
• Only use the battery with a qualified charger. Use of an unqualified battery charger may present a risk of fire, explosion, leakage, or other hazard. If you are unsure about whether a charger is compatible, contact customer support.
• Do not short-circuit the battery or allow metallic conductive objects—such as keys, coins, or jewelry—to contact the battery’s terminals.
• Replace the battery only with another qualified battery. Use of an unqualified battery may present a risk of fire, explosion, leakage, or other hazard. If you are unsure about whether a replacement battery is compatible, contact customer support.
• Promptly dispose of used batteries in accordance with local regulations and recycle if possible. Do not dispose as household waste.
• Supervise all battery usage by children.
• Avoid dropping the phone or battery. If the phone or battery is dropped, especially on a hard surface, an internal short-circuit can occur and pose a safety hazard. If you suspect battery damage, take it to a service center for inspection.
• Improper battery use may result in a fire, explosion, or other hazard.

Common Causes of Battery Drain
• Taking pictures with the flash on.
• Keeping backlighting on.
• Operating when far away from a base station or cell site.
• Using accessories.
• Operating when no service is available, or service is available intermittently.
• High earpiece and ringer volume settings.
• Repeating sound, vibration, or lighted alerts.
Memory Card

Install the Memory Card
To install the memory card:
1. With the front of the phone facing you, locate the rubber memory card cover on the lower right hand side.
2. Remove the cover.
3. Insert the memory card with the metal contacts facing toward the front of the phone until it is securely in place.

Note: With a memory card installed properly, the memory card icon appears at the top of the screen.
4. Put the rubber cover back into place.

Warning: Inserting a memory card improperly may damage the phone.

Format the Memory Card
From Accessories, select Memory Card > Format Card > Yes to format your memory card.

Note: Formatting will erase all current information on the memory card.

Remove the Memory Card
To remove the memory card:
1. Remove the rubber memory card cover.
2. Use your finger nail to press and release the memory card in the slot until it bounces outward.
3. Carefully take the memory card out of the slot.
4. Put the rubber cover back into place.
Phone Overview

Get to Know Your Phone
The following shows the front of the phone with the slide closed.

1. LED indicator.
2. **Rewind**, **Play/Pause**, and **Fast Forward** keys for the **Music Player**. Press the **Play/Pause** twice to activate the **Music Player**.
3. Home screen.
4. **Left** softkey selects items that appear on the lower left of the display. At the home screen, you can select **Menu**.
5. **Speakerphone** key activates the speakerphone and answers calls.
6. **Send** key starts or answers calls. Press once to display the recent calls list and twice to redial the last number dialed. Press and hold to activate voice commands.
7. **Navigation** key scrolls through lists and text entry fields and accesses the following shortcuts from the home screen.
   - Scroll left to go to **Media Gallery**.
   - Scroll right to go to **Settings > Bluetooth**.
   - Scroll up to go to **Contacts > View All**.
   - Scroll down to go to **Messaging**.
8. Phone speaker.
9. **Right** softkey selects items that appear on the lower right of the display. At the home screen, you can select **Contacts**.
10. **Back** key erases characters in text entry or returns you to the previous screen when navigating through menus.
11. **End** key turns the phone on and off, ends a call, and returns you to the main screen.
12. **OK** key selects a menu item or option. At the home screen, pressing the **OK** key displays the main menu.
The following shows the phone’s QWERTY keypad with the slide open.

1. **Right** softkey selects items that appear on the lower right of the display.
2. **Enter** key generates a carriage return in text entry.
3. **Back** key erases characters in text entry or returns you to the previous screen when navigating through menus.
4. **Navigation** keys, with the slide open, scroll through lists and text entry fields and access the same shortcuts from the main screen as the **Navigation** key on the front. The left, center, and right **Navigation** keys also function as the **Rewind**, **Play/Pause**, and **Fast Forward** keys for the music player.
5. QWERTY keypad.
6. Number keypad.
7. **Symbol** key enables you to type symbol characters or toggle between alphabets and symbols. Press the **Symbol** key once to change the input mode for the next character; press twice (within 2 seconds) to toggle between alphabets and symbols.
8. **Shift** key enables you to press once to change case mode or press twice to toggle between case modes.
9. **Left** softkey selects items that appear on the lower left of the display.
The following shows the back of the phone with the slide closed.
1. Accessory eyelet (for optional straps and lanyards).
2. Jack for AC adapter (included).
3. Jack for a hands-free headset (sold separately).
4. Memory card slot.
5. Camera lens.
6. **Camera** key activates camera mode. To activate camera mode, press and hold the **Camera** key.
7. **Volume** key raises or lowers ringer volume.
   **Warning:** Inserting an accessory into the wrong jack may damage the phone.

**LED Indicator**
Your phone’s LED indicator displays different colors depending on the alert.

**Note:** The menu items on your phone can change depending on the services provided by your service provider. Check with your service provider.
Guide Conventions
In this guide, the following conventions are used when describing phone features.
Select means to press the Left softkey, Right softkey or OK key to select an item seen on the display. For example, “Select Menu” tells you to physically press the left softkey to choose Menu from the display.
Press means to press a phone key. For example, “Press the Send key to make a phone call” tells you to physically press the Send key on your phone.
Scroll means to use the Navigation key to move through a list on the display. For example, “Scroll through your contacts list to choose a contact” means to physically press the Navigation key up or down to scroll through the list on the display.
> (greater than symbol) tells you to select an option from a menu or list. For example, “Menu > Settings” means to:
1. Press the left softkey to select Menu.
2. Scroll to the Settings option.
3. Press the OK key to select Settings.
2 Call Features

This section describes the basic features related to calls.

Power Phone Up

- To turn your phone on, press the **End** key and wait until the phone display lights up.
- To turn your phone off, press and hold the **End** key until the phone plays a short musical sound and turns off.

Make Phone Calls

Make sure you are in an area where a signal can be received. Look for the signal strength icon on the home screen. The more bars, the stronger the signal. If there are no bars, move to where the signal strength is better. When the phone has been idle for a time, it cycles into power save mode. Press any key to return to normal operating mode.

There are several ways you can make a phone call.

Call Using a Number

1. Enter a phone number.
2. Press the **Send** key.

Call Using a Contact

1. From **View All**, highlight a contact.
2. Press the **Send** key.

Redial a Number

1. Press the **Send** key to open your call history.
2. Highlight a phone number or contact and press the **Send** key.

**Note:** To redial the last number called, received or missed, press the **Send** key twice.

Answer Phone Calls

When a call comes in, the phone rings, vibrates, or lights up. The phone number of the caller also appears if it is not restricted. If the number is stored in your contacts list, the contact’s name appears. There are several ways you can answer a phone call.

Answer Using Earpiece

Press the **Send** key.

Answer Using Speakerphone

Press the **Speakerphone** key.

End Phone Calls

Press the **End** key.
Volume Control

Adjust Volume during a Call
Press the Volume key up or down to adjust the earpiece volume during a call.

Use the Speakerphone
Your phone has a built-in speakerphone.
• To turn on the speakerphone, press the Speakerphone key. The speakerphone icon appears on the home screen when the speakerphone is on.
• To turn off the speakerphone, press the Speakerphone key again.
Note: If you press the Speakerphone key during an incoming call, you will answer the call.

Silence an Incoming Call
• To silence the phone without answering the call, press the Back key or press the Volume key up or down.
• To silence the phone and answer the call, press the Back key or press the Volume key up or down and then press the Send key.

Use Speed Dialing
Speed dialing allows you to assign a one- or two-digit shortcut to a contact. Before you can use speed dialing you must save a phone number as a contact and assign a speed dial location to it. See “Assign Speed Dials to Contacts” on page 27.

To call a contact that has a speed dial location:
1. Enter the one- or two-digit speed dial location.
2. Press the Send key.

Emergency Services

Call Emergency Services
You can call an emergency code even if your phone is locked or your account is restricted. When you call, your phone enters emergency mode. This enables the emergency service exclusive access to your phone to call you back, if necessary. To make or receive regular calls after dialing the code, you must exit this mode.

To dial an emergency code:
1. Enter the 3-digit emergency code.
2. Press the Send key.
Note: Regardless of the 3-digit emergency code (911, 111, 999, 000, etc.), your phone operates as described above.

Exit Emergency Services
When you have completed the emergency call:
1. Select Exit.
2. Select Exit again to confirm your choice.
3 Text Entry

You can enter letters, numbers, and symbols in contacts, text messages, and your banner.

Text Entry Modes

The text entry screen has the following features:

1. Characters remaining that you can type. Allowed message length can vary depending on your service.
2. Text entry fields.
3. Current capitalization setting.
4. Current text entry mode.

Note: The entry mode will default depending on the task you are doing. For example, when entering a phone number, you are in Numbers Only mode. When entering a name for a contact, you are in Normal Alpha mode.

Enter Phone Numbers from the Main Screen

1. From the main screen, press the OK key to display the on-screen number keypad.
2. Scroll through to select your desired numbers.
3. Press the Send key to call the entered phone number or select Save to save it.

Enter Numbers with QWERTY Keypad

From the text entry field, select Options > Numbers Only and press the number key to enter your number.

The 123 icon indicates you are in Numbers Only mode. Press the Symbol key twice quickly (within two seconds) to change modes. Press the Symbol key once to change the mode for the next character only.

Enter Letters with QWERTY Keypad

From the text entry field, select Options > Normal Alpha to enter letters. You can enter text in the following ways:

- To enter a letter, press the key for the letter. Press the Shift key to change the case of a letter. Press the Shift key twice quickly (within two seconds) to change case modes. Press the Space key to enter a space.
- To enter a number or symbol, press the Symbol key and the key for the number or symbol.

The abc icon indicates that you are in Normal Alpha mode. Press the Symbol key twice quickly (within two seconds) to change modes. Press the Symbol key once to change the mode for the next character only.
Rapid Entry with QWERTY Keypad
When you press a series of keys using Rapid entry, your phone checks its dictionary and guesses at the word you are trying to spell. From a text entry field, select **Options > Rapid Entry** to speed up word completion. To enter words, press a key once. For example, to enter the word “Wyoming” press the w > y > o keys and then the **OK** key.

The 📞 icon indicates you are in **Rapid Entry** mode. To change case mode, press the **Shift** key.

Enter Symbols with QWERTY Keypad
- While entering text in **Normal Alpha** mode, do one of the following to enter symbols displayed on your keypad:
  - Press and hold the **Symbol** key while entering the symbols.
  - Press the **Symbol** key and then the key for the symbol.
- While entering text in **Normal Alpha** mode, do the following to access the full set of symbols:
  a. Select **Options > Add Symbol**.
  b. Scroll up or down to view the list of symbols.
  c. Press the letter key corresponding to the symbol to enter it.
# Text Entry Quick Reference

This table gives instructions for entering letters, numbers, and symbols.

<table>

<td>Speed Dial List</td>
<td>View your contacts assigned with speed dials.</td>
</tr>
<tr>
<td></td>
<td>Erase Contacts</td>
<td>Access these options: <strong>Contacts Only</strong>, <strong>Groups Only</strong>, and <strong>Erase All</strong>.</td>
</tr>
<tr>
<td></td>
<td>Contacts Count</td>
<td>Check how much contact space you have used.</td>
</tr>
</tbody>
</table>

## Access Contacts

**Access Contacts List**

1. From **View All**, enter the first letter of your desired contact and scroll to highlight it.
2. Do one of the following:
   - Press the **Send** key to call the contact.
   - Press the **OK** key to view the contact’s details.
   - Select **New** to create a new contact.
   - Select **Options** to access more functions.

## View Contact Details

1. From **View All**, select a contact.
2. At the contact details screen, highlight a number, address or note.
3. Select the detail you want to view. For example, to view a phone number, select **Options > View Number**.

## Use Frequent List

With **Frequent List** enabled, you can view 15 of your most frequently called contacts. See “Enable Frequent List” on page 67.
Use Fast Find
With Fast Find enabled, you can press one or two keys to view closer matches in your contacts list. See “Call Contact using Fast Find” on page 66.

Add Contacts
Add Contacts from Home Screen
1. From the home screen, enter a phone number to save (include the area code).
2. Select Save > Save New Contact.
3. Enter a name for the contact.
4. Enter additional phone numbers, email addresses, and other contact details. (Scroll up or down to move through the contact fields.)
5. When done, select Save.

Add Contacts from Contacts Menu
1. From Add New, enter a name for the contact. Scroll down to the next field when done.
2. Enter a primary number for the contact.
3. Enter additional phone numbers, email addresses, and other contact details. (Scroll up or down to move through the contact fields.)
4. When done, select Save.

Add a Code or Extension
When saving the phone number of an automated service, you may include a pause for dialing an extension.
1. From the home screen, enter a phone number.
2. Select Options and a type of pause:
   – Time Pause causes the phone to stop dialing for two seconds.
   – Hard Pause causes the phone to wait until you select Release while making the call.
3. Enter the remaining numbers and select Save > Save New Contact.
4. Complete the contact information and select Save.

Use Contacts
Call Contacts
1. From View All, select a contact.
2. At the contact details screen, highlight a number.
3. Select Options > Call.

Send a Text Message to Contacts
1. From View All, select a contact.
2. At the contact details screen, highlight a number or email address.
3. Select Options > Send Text Msg.
4. Complete your text message and select Send.
Send a Contact vCard
1. From **View All**, select a contact.
2. At the contact details screen, select the contact name.
3. Select **Send as vCard > Via Bluetooth** (to send to a Bluetooth-enabled device) or **To Printer** (to print on a Bluetooth-enabled device).
4. Complete the appropriate task to send the contact information.

Assign Ringers to Contacts
1. From **View All**, select a contact.
2. At the contact details screen, highlight the contact name.
3. Select **Options > Ringer > Assign Ringer** and a ringer from the list. (Scroll to play the ringers.)

Assign Message Tones to Contacts
1. From **View All**, select a contact.
2. At the contact details screen, highlight the contact name.
3. Select **Options > Msg Tone > Assign Msg Tone** and a ringer from the list. (Scroll to play the ringers.)

Assign Pictures to Contacts
1. From **View All**, select a contact.
2. At the contact details screen, highlight the contact name.
3. Select **Options > Picture > Assign Picture** to assign a picture.

Add a Prefix to Phone Numbers
Use **Prepend** to add a prefix, such as an area code, to a phone number:
1. From **View All**, select a contact.
2. At the contact details screen, highlight a number.
3. Select **Options > Prepend** to enter the prefix at the beginning of the number.
4. Select **Save**.

Customize Contacts

Edit Contact Details
1. From **View All**, select a contact.
2. At the contact details screen, select **Edit**.
3. Enter additional phone numbers, email addresses, and other contact details. (Scroll up or down to move through the contact fields.)
4. When done, select **Save**.

Assign Number Types
1. From **View All**, select a contact.
2. At the contact details screen, select **Edit**.
3. Press down twice to scroll to the number type dropdown and press the **OK** key.
4. Select a number type. The appropriate icon appears next to the number in your contacts list.
5. Select **Save**.
Assign Speed Dials to Contacts
1. From View All, select a contact.
2. At the contact details screen, highlight a number.
3. Select Options > Add Speed Dial.
4. Select a location from the list to assign the speed dial number.

Change Primary Numbers
When a contact has more than one number, the first number becomes the primary number by default. To change the contact’s primary number:
1. From View All, select a contact.
2. At the contact details screen, highlight a number.
3. Select Options > Primary Number > Yes.

Add Contacts to Groups
1. From View All, select a contact.
2. At the contact details screen, highlight a number or email address.
3. Select Options > Add To Group.
4. Select groups from the list provided. A checkmark appears next to each selection. You can also remove a checkmark.
5. When finished, select Done.

Erase Contacts
Erase Contact Details
1. From View All, select a contact.
2. At the contact details screen, highlight a number, address or note.
3. Select your desired erase option and then select Yes. For example, to erase an email address, select Options > Erase Address > Yes.

Erase an Entire Contact
1. From View All, select a contact.
2. At the contact details screen, highlight the contact name.
3. Select Options > Erase Contact > Yes to erase the entire contact.

Erase All Contacts
From Erase Contacts, select Contacts Only > Yes > Yes to erase all your contacts.
Note: You cannot recover deleted information.

Erase All Contacts and Groups
From Erase Contacts, select Erase All > Yes > Yes to erase all your contacts and groups.
Note: You cannot recover deleted information.
Contact Groups

You can assign your contacts to groups. Your phone comes with default groups. You can also create your own groups.

View Groups

1. Select **Groups** to view your preloaded groups, followed by the custom groups you have created.
2. Highlight a group and do one of the following:
   - Press the **OK** key to view the group details.
   - Select **New** to create a new group.
   - Select **Options** to access more functions.

Create a New Group

1. From **Groups**, select **New**.
2. Enter a name for the group and select **Next**.
3. Select contacts from the list provided. A checkmark appears next to each selection. You can also remove checkmarks.
4. When finished, select **Done**.

Your new group appears the next time you view your groups list.

Send Text Messages to Groups

1. From **Groups**, highlight a group.
2. Select **Options > Send Text Msg**.
3. Complete your text message and select **Send**.

Add or Remove Contacts from Groups

1. From **Groups**, highlight a group.
2. Select **Options > Edit**.
3. If you are modifying a group you created, select **Next**. Otherwise, go to the next step.
4. Select contacts from the list provided. A checkmark appears next to each contact in the group. Press the **OK** key to add or remove checkmarks.
5. When finished, select **Done**.

Assign Ringers to Groups

1. From **Groups**, select a group.
2. At the group details screen, scroll to the group name.
3. Select **Options > Ringer > Assign Ringer** and a ringer from the list. (Scroll to play the ringers.)

Assign Message Tones to Groups

1. From **Groups**, select a group.
2. At the group details screen, scroll to the group name.
3. Select **Options > Msg Tone > Assign Msg Tone** and a ringer from the list. (Scroll to play the ringers.)
Assign Pictures to Groups
1. From Groups, select a group you have created.
2. At the group details screen, scroll to the group name.
3. Select Options > Picture > Assign Picture to assign a picture.

Send a Group vCard
1. At the Groups list, highlight a group.
2. Select Options > Send > Via Bluetooth.
3. Complete the appropriate task to send the group information.

Create a Message Group
You can create a group specifically for messaging, based on a contact group.
1. From Groups, highlight a group.
2. Select Options > Create Msg Group.
3. Modify the name for the group and select Next.
4. Select contacts from the list provided. A checkmark appears next to each contact in the group. Press the OK key to add or remove checkmarks.
5. When finished, select Done.

Your new message group appears the next time you view your message groups list.

Erase a Group
1. From Groups, highlight a group.
2. Select Options > Erase > Yes.

Erase All Groups
From Erase Contacts, select Groups Only > Yes > Yes to erase all your groups.
Note: You cannot recover deleted information or erase preloaded groups.

Speed Dial List
Assign Speed Dial Numbers
1. From Speed Dial List, highlight an unassigned number (marked as empty).
2. Select Assign.
3. At the contacts list, select a contact.
4. At the contact details screen, select a phone number.

Clear Speed Dial Numbers
1. From Speed Dial List, highlight an assigned number.
2. Select Erase > Yes.

Check Contacts
Select Contacts Count to check how many contacts you have stored.
6 Recent Calls

Recent Calls Menu
Select Recent Calls from the main menu to access the following functions:

<table>
<thead>
<tr>
<th>Level 1 &gt;</th>
<th>Level 2 &gt;</th>
<th>Level 3</th>
</tr>
</thead>
<tbody>
<tr>
<td>Recent Calls</td>
<td>All</td>
<td>See a list of all voice calls.</td>
</tr>
<tr>
<td></td>
<td>Incoming</td>
<td>See a list of all voice calls you have received.</td>
</tr>
<tr>
<td></td>
<td>Outgoing</td>
<td>See a list of all voice calls you have made.</td>
</tr>
<tr>
<td></td>
<td>Missed</td>
<td>See a list of all voice calls you have missed.</td>
</tr>
<tr>
<td></td>
<td>Erase Call List</td>
<td>Access these options: All, Incoming, Outgoing, and Missed.</td>
</tr>
<tr>
<td></td>
<td>Call Timers</td>
<td>Access these options: Life Timer, Recent Calls, Home Calls, Roam Calls, Incoming Calls, and Outgoing Calls.</td>
</tr>
</tbody>
</table>

Work with Call Lists

Return Any Call
1. From All, highlight a number.
2. Press the Send key to call the number or select Options to access more features.

Return a Received Call
1. From Incoming, highlight a number.
2. Press the Send key to call the number or select Options to access more features.

Return an Outgoing Call
1. From Outgoing, highlight a number.
2. Press the Send key to call the number or select Options to access more features.

Return a Missed Call
1. From Missed, highlight a number.
2. Press the Send key to call the number or select Options to access more features.
Manage a Missed Call Alert
When you have missed a call, “Missed Call” appears on your screen. You can do one of the following:
• To clear the screen, select OK.
• To view the call details, select Calls and press the OK key.
• To return the call, select Calls and press the Send key.

Call List Options
Save Number from Call List
1. At a call list, highlight a number.
2. Select Options > Save.
3. Select Save New Contact to create a new contact or Add to Existing to add a number to an existing contact.

View Contact from Call List
1. At a call list, highlight a contact.
2. Select Options > View to see the contact details screen.

Send Text Message from Call List
1. At a call list, highlight a contact.
2. Select Options > Send Text Msg.
3. Complete your text message and select Send.

Erase Call List Records
Erase a Single Record
1. At a call list, highlight a contact.
2. Select Options > Erase Record > Yes.

Erase a Call List
From Erase Call List, select a call list to erase records from. For example to erase all records from the incoming call list, select Incoming > Yes.

Erase All Call Lists
From Erase Call List, select All > Yes to erase all records from all call lists.

Work with Call Timers
View All Calls Timer
Select Life Timer to view the number of calls and the total call time. Select Done when finished.
This timer tracks all calls made and received for life of the phone and cannot be reset.

View Recent Calls Timer
Select Recent Calls to view the number of calls and the total call time. Select Done when finished.
This timer tracks all calls made and received since you last reset the timer. To reset this timer to zero, select Reset > Yes.
View Home Calls Timer
Select **Home Calls** to view the number of calls and the total call time. Select **Done** when finished.
This timer tracks all calls made and received in your home network since you last reset the timer. To reset this timer to zero, select **Reset > Yes**.

View Roam Calls Timer
Select **Roam Calls** to view the number of calls and the total call time. Select **Done** when finished.
This timer tracks all roaming calls made and received since you last reset the timer. To reset this timer to zero, select **Reset > Yes**.
Your phone can alert you with a short beep ten seconds before each minute passes during a call. For more information, see “Enable Minute Alert” on page 67.

View Incoming Calls Timer
Select **Incoming Calls** to view the number of calls and the total call time. Select **Done** when finished.
This timer tracks all calls received since you last reset the timer. To reset this timer to zero, select **Reset > Yes**.

View Outgoing Calls Timer
Select **Outgoing Calls** to view the number of calls and the total call time. Select **Done** when finished.
This timer tracks all calls made since you last reset the timer. To reset this timer to zero, select **Reset > Yes**.
7 Media Gallery

Use Media Gallery to retrieve and playback media files and other downloads.

Media Gallery Menu
Select Media Gallery from the main menu to access the following functions:

<table>
<thead>
<tr>
<th>Level 1 &gt;</th>
<th>Level 2 &gt;</th>
<th>Level 3</th>
</tr>
</thead>
<tbody>
<tr>
<td>Media Gallery</td>
<td>Images</td>
<td>Access these options: Camera Pictures, Saved Images, Wallpapers, Wallpaper Shuffle, Screensavers, and Caller IDs.</td>
</tr>
<tr>
<td>Sounds</td>
<td>Access these options: Saved Sounds, Ringers, Music, Ringer Shuffle, and Voice Memos.</td>
<td></td>
</tr>
<tr>
<td>Delete All</td>
<td>Access these options: Camera Pics Only, Images Only, Sounds Only, and Delete All.</td>
<td></td>
</tr>
</tbody>
</table>

Images

Send a Picture
1. From Camera Pictures, select a picture.
2. Select Send > Via Bluetooth (to send to a Bluetooth-enabled device) or To Printer (to print on a Bluetooth-enabled device).
3. Complete the appropriate task.

Send an Image
1. From Saved Images, select an image.
2. Select Send > Via Bluetooth (to send to a Bluetooth-enabled device) or To Printer (to print on a Bluetooth-enabled device).
3. Complete the appropriate task.

Change the Default Wallpaper
1. From Wallpapers, select a wallpaper.
2. Select Set Default.

Edit the Wallpaper Shuffle
1. From Wallpaper Shuffle, select Edit. With no wallpapers saved, you need to add files.
2. Select Add to include a file in the shuffle, Remove to remove a file from the shuffle, or Options to access more features.
3. When finished, select Options > Done.

Change the Default Screensaver
1. From Screensavers, select a screensaver.
2. Select Set Default.
Assign a Caller ID
1. From **Caller IDs**, select an image.
2. Select **Assign**.
3. At the contacts list, select a contact.

**Sounds**

Send a Sound
1. From **Saved Sounds**, highlight a sound.
2. Select **Send > Via Bluetooth** (to send to a Bluetooth-enabled device).
3. Complete the appropriate task.

Assign a Ringer
1. From **Ringers**, highlight a ringer.
2. Select **Assign** and choose how you want to assign the ringer.
3. Complete the appropriate task.

Edit the Ringer Shuffle
1. From **Ringer Shuffle**, select **Edit**.
2. Select **Add** to include a file in the shuffle, **Remove** to remove a file from the shuffle, or **Options** to access more features.
3. When finished, select **Options > Done**. You can only edit the shuffle with at least a file added.

Play a Song
1. From **Music**, select **All Songs**.
2. Choose a song and select **Play**. Use the **Navigation** key to control the playback tools displayed.

**Access a Playlist**
1. From **Music**, select **Playlists**.
2. Choose a playlist and select **Play**. Use the **Navigation** key to control the playback tools displayed.

**Play a Voice Memo**
1. From **Voice Memos**, highlight a memo you have recorded.
2. Select **Play**. Use the **Navigation** key to control the playback tools displayed.

**Media File Options**

**Rename a File**
1. From a media file list, highlight a file.
2. Select **Options > Rename**.
3. Enter a new name and select **Save**. You can only rename unlocked files. Preloaded files on your phone are always locked.

**Send a File**
1. From a media file list, highlight a file.
2. Select **Options > Send > Via Bluetooth** (to send to a Bluetooth-enabled device), or **To Printer** (to print on a Bluetooth-enabled device). The options available depend on the file type.
3. Complete the appropriate task.
Assign a File
1. From a media file list, highlight a file.
2. Select Options > Assign and choose how to assign the file.
3. Complete the appropriate task.

Lock a File
1. From a media file list, highlight a file.
2. Select Options > Lock to protect a file from being accidently erased. To unlock the file, select Options > Unlock.

Play a File
1. From a media file list, highlight a file.
2. Select Options > Play.
Use the Navigation key to control the playback tools displayed.

Copy a File to a Memory Card
1. From a media file list, highlight a file.
2. Select Options > Copy File to copy the file to your memory card.
Copy File is only available when you have a memory card inserted.

Move a File to a Memory Card
1. From a media file list, highlight a file.
2. Select Options > Move File to move the file to a memory card. If the file is already on a memory card, Move File moves the file to the phone.
Move File is only available when you have a memory card inserted.

Add Files to a Shuffle
1. From a media file list, highlight a file.
2. Select Options > Shuffle to add the file to the applicable shuffle.

View File Details
1. From a media file list, highlight a file.
2. Select Options > Details to view the details such as file size or save date.
3. Select OK to exit.

Modify a File
1. From a media file list, select a file.
2. Select Options > Modify.
3. Select Options and an option to rotate, resize, and so on.
4. When done, select Save to save over an existing file or as a new one.

Use the Zoom
1. From a media file list, select a file.
2. Select Options > Zoom.
3. Use the Navigation key to zoom in and out.
4. Select Cancel to exit.

View a Slideshow
1. From Camera Pictures, select Options > Slideshow to play the slideshow of the files contained in the current folder.
2. Select Pause (to stop), Play (to resume), or Options (to access more features).
With Options selected, your phone automatically pauses the slideshow.
3. When you are done, select Options > Exit.
Erase Media Files

Erase a Single File
1. From a media file list, highlight a file.
2. Select Options > Erase > Yes.
You can only erase unlocked files. Preloaded files on your phone are always locked.

Erase All Files in a Folder
From a media file list, select Options > Erase All > Yes.
Note: You can only erase unlocked files. Preloaded files on your phone are always locked.

Erase All Pictures
From Delete All, select Camera Pics Only > Yes to erase all files in the Camera Pictures folder.
Note: You can only erase unlocked files.

Erase All Image Files
From Delete All, select Images Only > Yes to erase all files in the Images folder.
Note: You can only erase unlocked files. Preloaded files on your phone are always locked.

Erase All Sound Files
From Delete All, select Sounds Only > Yes to erase all files in the Sounds folder.
Note: You can only erase unlocked files. Preloaded files on your phone are always locked.

Erase All Media Files
From Delete All, select Delete All > Yes to erase all files in the Media Gallery folder.
Note: You can only erase unlocked files. Preloaded files on your phone are always locked.
## Messaging

Use **Messaging** to send, receive, and erase messages from your phone.

### Messaging Menu

Select **Messaging** from the main menu to access the following functions:

Send Messages

Create a Text Message
You can only send text messages to phone numbers capable of receiving them or to email addresses if supported.

1. From New Text Msg, enter a recipient’s phone number or email address. (Select Options to access contacts, groups or recently used addresses. Scroll down to move to the next field when done.)
   You can message up to ten recipients at once. Use comma or spaces to separate addresses.
2. Enter the message. (Select Options to access more features.)
3. When done, select Send.

Receive Calls while Creating Messages
If you receive a call while creating a message a notification appears. Do one of the following:
• Select Ignore to ignore the call and return to the message screen.
• Press the Send key to answer the call and your phone automatically saves the message to Drafts.

Enter Message Recipients
The following describes how to add recipients to your messages, depending on the services provided. Check with your service provider for availability.

Add Recipients from Contacts
1. At the compose message screen, select Options > Contacts when entering a phone number or email address.
2. Select a contact from the contacts list.
3. Select a number or address.
4. Complete your message.

Add Recipients from Recent List
1. At the compose message screen, select Options > Recent List when entering a phone number or email address.
2. Select a number or address.
3. Complete your message.

Add Recipients from Recent Calls
1. At the compose message screen, select Options > Recent Calls when entering a phone number or email address.
2. Select a number.
3. Complete your message.

Send to Groups
1. At the compose message screen, select Options > Message Groups when entering a phone number or email address.
2. Select a group.
3. Complete your message.
Save Recipients as Contacts
1. At the compose message screen, select **Options > Save Address** when entering a phone number or email address.
2. Select a number or address.
3. Select **Options > Save New Contact** (to create a new contact) or **Options > Add to Contact** (to add the number or address to an existing contact).

Add Recipients from Message Text
1. At the compose message screen, select **Options > Add Address** when entering the text to add more recipients.
2. Enter a number or address to add.
3. Complete your message.

Save Messages to Drafts
At the compose message screen, select **Options > Save Message** when entering the text. Your phone saves the message to **Drafts** for you to complete at a later time.

Complete Messages in Drafts
1. From **Drafts**, highlight your desired message.
2. Select **Edit** or **Options > Edit**.
3. Complete your message.

Use Preset Text

Add Preset Text
1. At the compose message screen, select **Options > Insert QuickText** when entering the text.
2. Select a preset text entry.
3. Complete your message.

Save Messages as Preset Text
1. At the compose message screen, select **Options > Save as QuickText** when entering the text to use it later as preset text.
2. Complete your message.

Save Received Messages as Preset Text
When viewing a received message, select **Options > Save as QuickText** to use it later as preset text.

Set Individual Message Settings
The following describes how to set message settings for individual messages.

**Note:** Your selection of each of the following message settings overrides that selected for all messages from **Msg Settings**.

Set Message Priority
1. When entering a message, select **Options > Msg Settings > Set Priority** to set the priority level.
2. Complete your message.
Change the Callback Number
1. When entering the message, select Options > Msg Settings > Callback Number.
2. Enter your callback number and select OK.
3. Complete your message.

Send Messages Later
1. When entering a message, select Options > Msg Settings > Send Later.
2. Select Immediate or Set Time to set a specific time to send the message.
3. Press the OK key to change the time.
   - Scroll left or right to move between the hour, minute, and AM/PM.
   - Scroll up or down to change the hour, minute, and AM/PM.
4. Select Next.
5. Press the OK key to change the date.
   - Scroll left or right to move between the month, day, and year.
   - Scroll up or down to change the month, day, and year.
6. Select Done.
7. Complete your message.

Set the Validity Period
1. When entering a message, select Options > Msg Settings > Validity Period.
2. Select Set Time to set how long to keep your message valid before removing it from the phone if not sent.
3. Press the OK key to change the time.
   - Scroll left or right to move between the hour, minute, and AM/PM.
   - Scroll up or down to change the hour, minute, and AM/PM.
4. Select Next.
5. Press the OK key to change the date.
   - Scroll left or right to move between the month, day, and year.
   - Scroll up or down to change the month, day, and year.
6. Select Done.
7. Complete your message.

Manage Received Messages

Reply to Text Messages
When receiving a message, your phone displays a notification and the message icon appears at the top of your screen. The message icon flashes with an urgent message alert if the message is urgent.
1. When a message notification appears, select Inbox (to view the message) or Ignore (to clear the notification).
   An icon appears at the top of your screen when you have an unread message.
2. From Inbox, highlight a message and select View > Reply (to compose your message) or Options (to access more features).
3. Complete your message and select Send.
Forward Messages
1. When viewing a received message, select Options > Forward.
2. Enter a number or address.
3. Complete your message and select Send.

Reply to all Recipients
1. When viewing a received message, select Options > Reply All to send your reply to all the message recipients.
2. Complete the message and select Send.

Reply with a Copy of the Message
1. When viewing a received message, select Options > Reply with Copy.
   The original message appears in your reply message.
2. Complete your message and select Send.

Save Received Messages
When viewing a received message, select Options > Save Message to save it to Saved Msgs.

View Sender Information
When viewing a received message, select Options > Sender to view an existing contact, add to an existing contact, or create a new contact depending on the sender.

Lock Messages
When viewing a received message, select Options > Lock Msg to protect it from accidental deletion. To unlock the message, select Options > Unlock Msg.

Call a Number in a Message
When viewing a received message, press the Send key to call a valid number in the message.

Sort Messages in Inbox
1. From Inbox, select Options > Sort.
2. Select a sort option.

Manage Voicemail

Configure your Voicemail
Before your phone can receive voicemail messages, you need to set up a password and record a personal greeting with your service provider.
When you have set up your voicemail, all unanswered calls to your phone are automatically transferred to voicemail, even if your phone is in use or turned off.
1. Press and hold the 1 key.
2. Follow the system prompts to create a password and record a greeting.
Check your Voicemail
When you receive a voicemail message, a notification with a voicemail message icon appears at the top of your screen.

- At the voicemail notification, select Call to call your voicemail number and follow the system prompts to retrieve the message. Select Ignore to clear the notification without checking messages. The notification icon remains on top of the screen until you listen to the message.
- When only the voicemail message icon appears on top of the screen, select Voicemail and follow the system prompts to retrieve the message.

Manage Sent Messages

Check Message Status in Sent Folder
Use the following symbols to check the Sent folder for the status of messages successfully sent.

| ![Scheduled Message](image) | The scheduled message will be sent at the scheduled time. You cannot cancel delivery of the message. |
| ![Sent](image) | The message was sent. You cannot cancel delivery of the message. |
| ![Received](image) | The message has been received. |
| ![Multiple Recipients](image) | The message has been sent to more than one recipient. |

Check Message Status in Outbox
Use the following symbols to check your Outbox for the status of messages sent but still in process.

| ![Pending](image) | The message is pending and will be sent when possible. You can cancel delivery of the message. |
| ![Failed](image) | The message cannot be sent because service is not available. An alert appears on your phone if the message cannot be sent. |

Unable to Send Messages
You may not be able to send or receive messages if your phone’s memory is nearly full, or if digital service is not available at the time. To free up memory, erase old messages. See “Erase Messages” on page 45.

Message Settings
The following message settings affect all messages unless you change them for individual messages.

Set Message Alerts
1. From Alerts, select Msg Alert.
2. Select an alert for messages.
   If you select an & Remind alert, the phone notifies you once when receiving a new message and notifies you again every five minutes. To stop a reminder alert, select Ignore.
Set Page Alerts
1. From Alerts, select Page Alert.
2. Select an alert for pages.
If you select an & Remind alert, the phone notifies you once when receiving a new message and notifies you again every five minutes. To stop a reminder alert, select Ignore.

Set Voicemail Alerts
1. From Alerts, select Voicemail Alert.
2. Select an alert for voicemails.
If you select an & Remind alert, the phone notifies you once when receiving a new message and notifies you again every five minutes. To stop a reminder alert, select Ignore.

Set Message List View
From Msg List View, select one of the following to set your message list display:
- **Sender & Preview** displays the sender and first part of messages.
- **Sender & Date-Time** displays the sender and sent time of messages.
- **Msg Preview** displays the first part of messages.
- **Sender** displays the message sender.

Set your Signature
You can create a signature to appear at the end of all outgoing messages.
1. From Signature, enter your signature.
2. Select OK to save the signature.

**Note:** The signature counts towards the character limit of your message.

Edit Preset Messages
Your phone comes with preset messages, such as “Please call me,” which you can insert into the body of a text message. You can edit or create up to 40 preset messages.
1. From QuickText, do one of the following:
   – Scroll to a preset message and select Edit.
   – Select New Msg to create a new preset message.
2. Enter or edit the text.
3. Select Save.

**Note:** You can also save messages you have written or received as preset messages.

Set Callback Number
1. From Callback Number, enter a new number to change your default callback number.
2. Select OK to save the number.

Enable Save to Sent
From Save to Sent, select Enabled to automatically save outgoing messages to the Sent Msgs folder.
Enable Auto-Erase
Use Auto-Erase to set your phone to erase messages automatically when it needs memory for incoming messages.
From Auto-Erase, select one of the following:
• Disabled erases no messages.
• Inbox Msgs erases old messages in Inbox when memory is needed.
• Sent Msgs erases old messages in Sent Msgs when memory is needed.
• Both erases old messages in both Inbox and Sent Msgs when memory is needed.

Set Default Text
You can change the default text entry mode when creating a text message. This setting applies only to the Message field, not the Send To field.
From Default Text, select Normal Alpha (to enter text letter by letter) or Rapid Mode (to enter text with word recognition).

Set your Voicemail Number
Often your service provider automatically programs your voicemail number (the number your phone calls to retrieve voicemail). To change it:
1. From Voicemail Number, select Edit.
2. Enter your voicemail number. (Use Options > Time Pause or Hard Pause to enter pauses.)
3. Select Save.

Erase Recent List
From Erase Recent List, select Yes to clear the list of recipients you have recently sent messages to.

Message Groups
You can create groups for messaging.

View Message Groups List
1. From Message Groups, view your preloaded groups, followed by the custom groups you have created.
2. Highlight a group and do one of the following:
   - Press the OK key to view the groups details.
   - Select New to create a new group.
   - Select Options to access more functions.

Create a New Message Group
1. From Message Groups, select New.
2. Enter a name for the group and select Next.
3. Select contacts from the list provided. A check mark appears next to each selection. You can also remove checkmarks.
4. When finished, select Done.
Your new group appears the next time you view your groups list.
Send Text Messages to Message Groups
1. From Message Groups, highlight a group.
2. Select Options > Send Text Msg.
3. Complete your text message and select Send.

Add Contacts to Message Groups
1. From Message Groups, highlight a group.
2. Select Options > Edit.
3. If you are modifying a group you created, select Next. Otherwise, go to the next step.
4. Select contacts from the list provided. A checkmark appears next to each contact in the group. Press the OK key to add or remove checkmarks.
5. When finished, select Done.

Assign Message Tone to Message Group
1. From Message Groups, select a group.
2. At the groups details screen, scroll to the group name.
3. Select Options > Msg Tone > Assign Msg Tone and a ringer from the list. Scroll to play the ringers.

Send a Message Group vCard
1. From Message Groups, highlight a group.
2. Select Options > Send > Via Bluetooth.
3. Complete the appropriate task to send the contact information.

Erase a Message Group
1. From Message Groups, highlight a group.
2. Select Options > Erase > Yes.

Erase Messages
Erasing old messages frees up memory in your phone. You can erase messages as you send or read them, erase them one at a time, or erase them all at once.

Erase a Single Message
When viewing a received message, select Options > Erase > Yes.
Note: You can erase a scheduled message, but cannot cancel its delivery.

Erase Messages from a Folder
From Erase Msgs, select a folder to erase messages from. For example, to erase received messages, select Inbox > Yes.
Note: You cannot recover deleted information.

Erase All Messages
From Erase Msgs, select All > Yes to erase all messages from all folders, except for voicemail messages.
Note: You cannot recover deleted information.

Check Message Count
From Message Count screen, check how many messages you have stored.
# Tools & Games

## Tools & Games Menu

Select **Tools & Games** from the main menu to access the following functions:

### Play Brick Attack

The goal of this game is to eliminate bricks arranged in levels. You send a moving ball upward using a paddle at the bottom of the screen.

1. Select **Brick Attack**.
2. You may see a notification, select **Yes** or **No**.
3. Select **New** to start the game. You have the following options:
   - Use the **Navigation** key to move the paddle.
   - Press the **Back** key to pause the game.
   - Select **Resume** to restart the game.
   - Select **Options > Exit** to exit the game.
**Voice Memo**

Use **Voice Memo** to record and play back audio memos.

**Record Voice Memos**
1. From **Voice Memo**, select **Record New**.
2. Record your voice memo and select **Stop** when done.
3. Select **Save**.

If you receive an incoming call while recording a memo, the memo is saved and the incoming call screen appears.

**Play Voice Memos**
1. From **Recorded Memos**, highlight a memo.
2. Select **Play** to play the memo or **Options** to access more features.

**Scheduler**

Use **Scheduler** to schedule events and set reminder alerts.

**Create an Event**
1. From **Add New Event**, enter a name. Scroll down to move to the next field when done.
2. Press the **OK** key to select an event type from the list.
3. Press the **OK** key to change the date, if needed.
   - Scroll left or right to move between month, day, and year fields.
   - Scroll up or down to change month, day, and year.
   Press the **OK** key to save and move to the next field.
4. Press the **OK** key to change the time, if needed.
   - Scroll left or right to move between hour, minute, and AM/PM fields.
   - Scroll up or down to change hour, minute, and AM/PM.
   Press the **OK** key to save and move to the next field.
5. Press the **OK** key to change the duration, if needed.
   - Scroll left or right to move between hour and minute fields.
   - Scroll up or down to change hour and minute.
   Press the **OK** key to save and move to the next field.
6. Press the **OK** key to select a priority from the list.
7. Press the **OK** key to select a reminder from the list.
8. Press the **OK** key to select a reminder sound from the list.
9. Press the **OK** key to select **During Event** to enable silent mode or **Off** to have normal sounds.
10. Press the **OK** key to select a recurring event from the list, if needed.
11. Select **Save**.
View Events

View Events by Month
1. From View Month, scroll through the month view. (Days with events are highlighted.)
2. Press the OK key to select a date.
3. Do one of the following:
   – Scroll left or right to move to another date.
   – Select an event.
   – Scroll to a time and select Add New to create a new event.
   – Select Options to access more features.

View Events by Date
From View Day, do one of the following:
• Scroll left or right to move to another date.
• Select an event.
• Scroll to a time and select Add New to create a new event.
• Select Options to access more features.

Go to a Specific Date
1. From Go to Date, scroll left or right to move between month, day, and year fields. Scroll up or down to change month, day, or year.
2. Press the OK key to select the date.

View Events by List
From View All Events, select an event from the list or Options to access more features.

Return to the Current Date
From View Day, select Options > Go to Today to return to the current date.

Sort Events by Time
From View All Events, select Options > Sort by Time to sort events by time.

Sort Events by Type
From View All Events, select Options > Sort by Type to sort events by their assigned type.

Sort Events by Priority
From View All Events, select Options > Sort by Priority to sort events by their assigned priority.

Modify Events

Edit an Event
1. From View Day, select an event.
2. At the event details screen, select Options > Edit.
3. Modify the event and select Save.

Send an Event
1. From View Day, select an event.
2. At the event details screen, select Options > Send > Via Bluetooth (to send the file to a Bluetooth-enabled device) or To Printer (to print the file on a Bluetooth-enabled device).
3. Complete the appropriate task.
Copy an Event
1. From View Day, select an event.
2. At the event details screen, select Options > Copy.
3. Enter a new name for the event.
4. Complete the event and select Save.

Erase Events
Erase an Event
1. From View Day, select an event.
2. At the event details screen, select Options > Erase > Yes.

Erase the Current Day’s Events
From View Day, select Options > Erase Today’s Events > Yes to erase all events on that day.

Erase All Events
From View All Events, select Options > Erase All Events > Yes to erase all events from the phone.
Note: You cannot recover deleted information.

Erase All Past Events
From View All Events, select Options > Erase All Past Events > Yes to erase all past events from the phone.
Note: You cannot recover deleted information.

Change Scheduler Settings
From Settings, you can modify the following features.

Set Scheduler Hours
1. From Scheduler Hours, modify the start and end times.
   - Scroll left or right to move between hour, minute, and AM/PM fields.
   - Scroll up or down to change hour, minute, and AM/PM.
2. Select Save when done.

Erase Events Automatically
From Auto Erase, select an option from the list to set when to automatically erase your past events.

Set Event Priority
From Priority, select an option to set every event you create with this priority type.

Set Event Reminder
From Reminder, select an option to set every event you create with this reminder setting.

Set Event Reminder Alert
From Reminder Sound, select an option to set every event you create with this reminder alert.
(Scroll to listen to sounds.)

Set Event Silent Mode
From Silent Mode, select an option to set every event you create with this silent mode.
Alarm Clock
You can set up to four alerts with your phone’s three alarm clocks and one quick alarm.

Note: The alert occurs only if the phone is on.

Set an Alarm
1. From Alarm Clock, scroll to one of the alarms and select Set.
2. Press the OK key to change the time, if needed.
   – Scroll left or right to move between hour, minute and AM/PM fields.
   – Scroll up or down to change hour, minute and AM/PM.
   Press the OK key to save time and move to the next field.
3. Press the OK key to select a sound from the list.
4. Press the OK key to select a recurring alarm from the list, if needed.
5. Press the OK key to enter a note.
6. Select Save.
When the alarm rings, select Stop to turn off the alarm or Snooze to set the alarm to ring in another ten minutes.

Set the Quick Alarm
1. From Alarm Clock, scroll to the quick alarm and select Set.
2. Choose a time. (A notification shows the quick alarm is on.)
   When the quick alarm rings, select Off to turn off the alarm, or Reset to set the quick alarm again.

Use Tip Calculator
1. From Tip Calculator, enter the amount of your bill.
2. Scroll down to select the percentage you want to tip.
   The total bill with tip is displayed. If you are finished, select Done. Otherwise, go on to the next step.
3. Scroll down to enter the number of people sharing the bill (or enter 1 if paying the entire bill).
4. Select Next to view the final bill.
5. Select Done when finished.

Use Calculator
1. From Calculator, enter the first number.
2. Select a mathematical operation:
   – Scroll left to multiply.
   – Scroll right to divide.
   – Scroll up to add.
   – Scroll down to subtract.
   Your selection will appear highlighted.
3. Enter the second number, and press the OK key to view the result.
4. Select **Exit** to return to the menu, or **Options** and one of the following:
   - **MS** replaces the value currently stored in memory with the displayed result on the screen.
   - **M+** adds displayed result on the screen to the value currently stored in memory.
   - **MR** displays value currently stored in memory on the screen.
   - **MC** clears value currently stored in memory.

**Use Timer**

The timer counts down for the specified time. It beeps when that amount of time has elapsed.

1. From **Timer**, select **Set**.
2. Enter the time length.
   - Scroll left or right to move between hours, minutes, or seconds fields.
   - Scroll up or down to change hours, minutes, or seconds.
3. Select **Sound**, and choose from the list to modify the sound.
4. To work the timer, select from the following options:
   - **Start** begins the countdown.
   - **Stop** pauses the countdown.
   - **Reset** clears the timer.

When the countdown is complete, select **Off** to silence the alarm.

**Use Stopwatch**

From **Stopwatch**, select from the following options:
- **Start** begins counting.
- **Stop** pauses counting.
- **Reset** clears the stopwatch.

Press the **Back** key to exit.

**Memopad**

**Write a Memo**
1. From **New Memo**, enter the memo.
2. Select **Save**.

**View a Memo**
From **View Memos**, select **View** to open a memo or **Options** to access more features.

**Edit a Memo**
1. From **View Memos**, highlight a memo.
2. Select **Options > Edit**.
3. Edit the memo, and select **Save**.

**Send a Memo**
1. From **View Memos**, highlight a memo.
2. Select **Options > Send as SMS**.
3. Complete the message, and select **Send**.
Call a Number in a Memo
If you have a phone number in a memo, you can call it.
1. From View Memos, highlight a memo.
2. Select Options > Use Number.
3. Select a number, and press the Send key.

Lock a Memo
You can lock a memo to prevent it from being edited or erased.
1. From View Memos, highlight a memo.
2. Select Options > Lock Memo.
To unlock a memo, select Unlock Memo.

Erase a Memo
1. From View Memos, highlight a memo.
2. Select Options > Erase > Yes.

Erase All Memos
From View Memos, select Options > Erase All > Yes.
Note: Selecting Erase All only erases unlocked memos.

World Clock
Use World Clock to check times in cities around the world in relation to your local time.

Set World Clock
1. From World Clock, first scroll left or right to select a time zone.
2. Check your local time and date on the first line, followed by your selected world city and its time and date.

Search World Clock
1. From World Clock, select Options > Search City or Search Country.
2. Enter the first letter(s) of your desired city or country.
3. Select a city or country from the list.
10 Camera

Camera Tips
Your phone has a camera. Before using your phone’s camera, here are some tips:
• You cannot activate the camera while on an active call or while browsing files in the media gallery.
• Once the camera is active, the home screen acts as the viewfinder.
• If you get a “Low memory” error, check your resolution and quality compression settings.
• If there is no activity within 45 seconds after you turn your camera on, the camera times out and returns to the previous launch point.
• Menu settings and options can only be accessed when the camera is active.
• Numbers in the top right corner indicate the number of snapshots remaining before the phone runs out of memory.

Take a Picture
1. To activate the camera, press and hold the Camera key. You can also select Camera from the main menu.
2. Focus on the image using the phone’s display as a viewfinder.
3. To take a picture, press the OK key. The picture is saved to Camera Pictures.
4. Select Send > Via Bluetooth (to send to a Bluetooth-enabled device) or To Printer (to print on a Bluetooth-enabled device). Select Erase to delete the picture from your phone.
5. Press the End key to exit camera mode.

Camera Setting Options
Adjust the Resolution
From camera mode, select Options > Settings > Resolution and a size for your pictures. Numbers in the bottom left corner indicate the current resolution setting.

Set Self Timer
From camera mode, select Options > Settings > Self Timer and a time. The ☑ icon indicates the timer is activated. When you take a picture, a beep plays three seconds from the time the shutter snaps the picture.
Enable Date/Time Stamp
From camera mode, select **Options > Settings > Date/Time > On** to place a date/time stamp on each picture taken.
The 📅 icon indicates when the date/time stamp is on.

Enable Multishot Mode
From camera mode, select **Options > Settings > Multishot > On** to take multiple pictures.
The 📷 icon indicates multishot mode is enabled. When you take a picture, press and hold the **OK** key to take multiple pictures. A single tone plays for each picture taken.
Your camera is set to a lower resolution during multishot mode. The resolution setting returns to the previous setting when you are done.

Set Shutter Sound
1. From camera mode, select **Options > Settings > Shutter Sound**.
2. Select a sound to play when the shutter takes a picture.

Set White Balance
1. From camera mode, select **Options > Settings > White Balance**.
2. Scroll left or right to select the white balance setting. Look at the display to see how each setting looks.

Set Colour Tone
1. From camera mode, select **Options > Settings > Colour Tone**.
2. Scroll left or right to select a colour tone. Look at the viewfinder to see how each setting looks.

Set Picture Quality
From camera mode, select **Options > Settings > Picture Quality** and a quality level for your picture.
When you select a higher quality level, the size of the file is bigger.

Set Save Location
If you have a memory card, you can save pictures taken to it. From camera mode, select **Options > Settings > Save Location > Save To Card**.
If you remove your memory card, pictures will be saved to your phone.

Other Camera Options

Set Brightness Level
1. From camera mode, select **Options > Settings > Brightness**.
2. Scroll left or right to change the brightness level. Press the **OK** key to set the brightness.
Go to Camera Pictures
From camera mode, select **Options > Camera Pictures** to see all of the pictures you have taken. These are located in **Camera Pictures**.

Take a Picture in a Frame
1. From camera mode, select **Options > Frames**.
2. Scroll left or right to view the frames available.
3. Select **OK** to choose a frame.
4. Take a picture with the frame. The frame is part of the image and can not be removed.
11 Music Player

Use Music Player to play and manage media files.

Play a Song
1. From the home screen, select Menu > Music Player.
2. At the song list, scroll to a song.
3. Select Play to play the song or Options to access more functions.

You can also access the Music Player from the home screen by pressing the Play/Pause twice.

Load a Song
Music files can be loaded onto your phone via Bluetooth. You can also use the following steps to load music from your computer via a microUSB cable.

Note: The Music Player will read music saved in MP3 file format only (other file formats are not supported).

1. Insert a memory card into your phone. You must have a memory card to load music via a microUSB cable.
2. Connect the microUSB cable to the microUSB jack on your phone.
3. Connect the microUSB cable to the USB port on your computer.

Note: You do not have to install any additional software when using the phone in Mass Storage mode.

4. From your phone’s main menu, select Settings > USB Mode > Mass Storage.
5. On your computer, you will see your phone as a removable disk drive.
6. Open the removable disk drive.
7. Open the My Music folder on the memory card.
8. Drag and drop music files to the My Music folder.
9. When you are done transferring files, disconnect your phone from your computer.

Search for a Song
1. From Music Player, select Options > Music Library.
2. Select All Songs and enter the first letter(s) of the name of your desired song to search for it. The search letters you enter are not case sensitive. You can also scroll through the song list.

Note: You can sort your songs in various ways. For example, to sort songs by artist, choose By Artist instead of All Songs.
3. Select Play to play the song or Options to access more functions.
Repeat a Song
To place the song your are currently playing into a playback loop, select Options > Repeat Track ON.

View Song Details
To view the details of the song your are currently playing, select Options > Details.

Work with Songs
1. From Music Player, select Options > Music Library.
2. Select All Songs or other song list.
3. Scroll to a song and select Options to access functions such as locking or assigning the file.
For more information, see “Media File Options” on page 34.

Create a Playlist
1. From Music Player, select Options > Music Library.
2. Scroll to Playlists and select Options > Create New.
3. Enter a name for the playlist and select Save.
4. Select All Songs or other song list.
5. Scroll through the list and select songs. A checkmark appears next to each selection. You can also remove checkmarks.
6. Select Done, when complete.

Access a Playlist
1. From Music Player, select Options > Music Library > Playlists.
2. Choose a playlist.
3. Select Play to start the playlist or Options to access more functions.

Music Player Settings
From Music Player, select Options > Settings to adjust the following features.

Enable Repeat
To play your tracks continuously in a loop, from Repeat, select Enable.
Note: Once enabled, your phone keeps playing the tracks unless you stop it.

Enable Shuffle
To randomly play each of your tracks once, from Shuffle, select Enable.
Note: Shuffle, even if enabled, only works when you have three or more tracks to play.

Enable Do Not Disturb
To stop receiving incoming calls and most of the alarms and alerts, from Do Not Disturb, select Enable. When enabled, you can still make a call or send a message.
Note: Once you exit Music Player, your phone automatically disables Do Not Disturb, showing all alarms and alerts received with Do Not Disturb enabled at the main screen.
Set Auto Off Duration
Use **Auto off** to set the duration for which your phone is paused or stopped before automatically turning off **Music Player**. From **Auto off**, select one of the following:

- **10 Minutes** automatically turns off **Music Player** after the phone pauses or stops for 10 minutes.
- **20 Minutes** automatically turns off **Music Player** after the phone pauses or stops for 20 minutes.
- **Off** never automatically turns off **Music Player**.

Enable Bluetooth Headset
Use **BT Headset** to pair your Bluetooth device with **Music Player**. Refer to “Pair with a Device” on page 60 for more information.
## 12 Settings

### Settings Menu

Select **Settings** from the main menu to access the following functions:

Bluetooth

The Bluetooth® wireless technology (not available on all phones) enables wireless connectivity with accessories such as portable or installed hands-free car kits, headsets, handsets, computers, and so on. For details, check with your service provider.

You must use a Bluetooth device (compatible with Class 2 Bluetooth wireless technology, version 1.2) in order to use this phone wirelessly. Bluetooth accessories display a symbol on your phone.

Enable Bluetooth

Before you can connect your phone with a Bluetooth device, you need to enable the Bluetooth feature on your phone.

From On/Off, select On Visible or On Invisible.

Pair with a Device

To enable your phone to communicate with a Bluetooth device, you need to "pair" the device with your phone. The following instructions describe the process. You may also need to reference the user guide provided with your Bluetooth device.

1. Prepare the Bluetooth device (accessory) for pairing as described in the device’s user guide.
2. From My Devices, select Find New. Your phone then searches and detects any available Bluetooth devices in the vicinity. You must enable the Bluetooth feature on your phone.
3. At the device list, highlight a device and select Add.
   Accept the pairing if prompted.
4. If necessary, enter the password provided with the Bluetooth device and select OK.

With the password accepted, the device appears in your device list.

Use Bluetooth Devices

Connect to a Device

Before you can use Bluetooth, you must get your phone ready to communicate with a device. This is called “connecting.”

To connect your phone to a Bluetooth device, from My Devices, highlight a device and select Connect.

A notification appears confirming the connection. You can now use the device with your phone.

Disconnect from a Device

From My Devices, highlight a connected device and select Disconnect.

Rename a Device

1. From My Devices, highlight a device.
2. Select Options > Rename.
3. Enter a new name and select Save.

Delete a Device

You can delete a Bluetooth device that you have paired your phone with.

1. From My Devices, highlight a device.
2. Select Options > Delete > Yes.
View Device Services
A Bluetooth device paired with your phone may have more than one service profile (such as Headset, Handsfree, and so on). Do the following to check the services available:
1. From **My Devices**, highlight a device.
2. Select **Options > Services**.
3. At the service list, highlight a profile and select **Connect** to change the active profile.

Enable OBEX Authentication
From **OBEX Authentication**, select **Enabled**. With object exchange (OBEX) authentication enabled, you need a user name and password to transfer files via Bluetooth.

Sounds
Your phone has several settings that control the sound. You can select from a variety of ringers and adjust the volume.

Ringers
From **Ringers**, you can modify the following settings.

Set Ringers
From **Ringer Type**, select a ringer. (Scroll down the list to play the ringers.)

Enable Roam Ringer
From **Roam Ringer**, select **Enabled** to activate a specific ringer for roaming calls.

Ringer Shuffle
– Enable Ringer Shuffle
From **Ringer Shuffle**, select **Enable** to turn on the ringer shuffle.

– Edit Ringer Shuffle
1. From **Ringer Shuffle**, select **Edit**.
2. Select **Add** (to include the file in the shuffle) or **Remove** (to remove the file from the shuffle).
3. When finished, select **Options > Done**.
– View Ringer Shuffle
1. From **Ringer Shuffle**, select **View**. Only the files used in your shuffle appear.
2. Select **Edit** to modify the shuffle list or press the **Back** key to exit.

Set Ringer Mode
Your phone is set to make sounds when you receive calls, press keys, navigate through menus, and receive alerts (such as new messages). You can silence all sounds and set the phone to vibrate or light up when you receive calls and alerts.

From **Ringer Mode**, select one of the following:
- **Normal Sounds** rings for the incoming call or alert (in effect, returning the phone to a non-silent mode).
- **Vibrate Only** vibrates for the duration of the incoming call or other alerts.
- **Vibe Then Ring** vibrates for the first ten seconds and then rings for the remainder of the incoming call alert.
- **Lights Only** lights up for the duration of the incoming call or other alerts.

You can also press and hold the # Space key to toggle between **Vibrate Only** mode and **Normal Sounds** mode.

**Note:** The phone rings when attached to an external power source (such as a charger), even if all sounds have been silenced.

Volume
From **Volume**, you can modify the following settings.

Set Ringer Volume
1. From **Ringer Volume**, scroll right or left to set the ringer volume.
2. Press the **OK** key to save.

Set Speakerphone Volume
1. From **Spkrphone Volume**, scroll right or left to set the speakerphone volume.
2. Press the **OK** key to save.

Set Earpiece Volume
1. From **Earpiece Volume**, scroll right or left to set the earpiece volume.
2. Press the **OK** key to save.

Set Keypad Volume
1. From **Key Volume**, scroll right or left to set the keypad volume.
2. Press the **OK** key to save.

Set Slide Sounds
1. From **Slide Sounds**, select **Slide Open** or **Slide Close**.
2. Select a sound. (Scroll down the list to play the sounds.)
Set Power On/Off Sounds
1. From Pwr On/Off Sound, select Power On Sound or Power Off Sound.
2. Select a sound to play when your phone powers on or off. (Scroll down the list to play the sounds.)

Keypad
From Keypad, you can modify the following settings.

Set Key Press Sounds
From Key Sounds, select Tone, Click, or Off to set the sounds you hear when pressing the keypad.

Set Key Tone Length
From Key Length, select Normal or Long to set the length of the keypad tone.

Display

Set Wallpaper
You can select a wallpaper for your phone’s home screen.
1. From Set Wallpaper, select Camera Pictures, Saved Images, or Wallpapers.
   To turn off wallpaper, select None.
2. Select a file. You may need to resize or crop the file.
3. Select Done.

Wallpaper Shuffle
Enable Wallpaper Shuffle
From Wallpaper Shuffle, select Enable to turn on wallpaper shuffle.

Edit Wallpaper Shuffle
1. From Wallpaper Shuffle, select Edit.
2. Select Add (to include a file in the shuffle) or Remove (to remove a file from the shuffle).
3. When finished, select Options > Done.

View Wallpaper Shuffle
1. From Wallpaper Shuffle, select View. The files in your shuffle appear.
2. Select Edit to modify the shuffle list or press the Back key to exit.

Set Wallpaper Shuffle Interval
1. From Wallpaper Shuffle, select Set Shuffle Time.
2. Select an interval time from the list. Your wallpaper changes to another file in the shuffle at the selected interval time.

Set Screensaver
Screensavers appear on the home screen, activated ten seconds after the last keypress. Incoming calls and alerts override the screensavers.
1. From Set Screensaver, select Camera Pictures, Saved Images, or Screensavers.
   To turn off screensaver, select None.
2. Select a file. You may need to resize or crop the file.
3. Select Done.

Set Theme
From Themes, select a colour theme for the display background.

Set Main Menu View
From Main Menu View, select one of the following:
- Grid displays icons of each menu item, with its name at the top of the screen.
- List displays a list of all menu items.
The next time you view the Menu, your selected menu style appears.

Set Greeting Banner
The banner is the personal label for your phone, appearing on the home screen above the time and date.
1. From My Banner, select Edit.
2. Press the Back key to clear the current banner.
3. Enter your new text (up to 14 characters) or press the # Space key for a blank banner.
4. Select Save.

Backlighting
Set Display Duration
From Backlighting, select Display Duration and one of the following:
- Always Dim forces the backlight to remain dim before turning off.
- 7 Seconds, 10 Seconds, 15 Seconds, or 30 Seconds turns backlighting on for the set time after your last keypress.
- Always Bright forces the backlight to remain bright before turning off.

Set Keypad Duration
From Backlighting, select Keypad Duration and one of the following:
- Always Off forces the backlight to remain dim before turning off.
- 7 Seconds, 10 Seconds, 15 Seconds, or 30 Seconds turns backlighting on for the set time after your last keypress.
- Always Bright forces the backlight to remain bright before turning off.

Set Brightness
1. From Brightness, scroll to change the brightness level.
2. Select Save.

Set Language
From Language, select a language.
Set Time and Date Format
From **Time/Date Format**, select a time and date format.

**Convenience**
Use these settings to make your phone more convenient to use.

**Set Date and Time**
In Airplane mode, you can set the time and date manually.

**Note:** You can only access **Set Time/Date** with **Airplane Mode** enabled.

1. From **Set Time/Date**, do the following to change the date:
   - Scroll left or right to move between the month, day, and year fields.
   - Scroll up or down to change the month, day, and year.
2. Press the **OK** key to save the date.
3. Do the following to change the time:
   - Scroll left or right to move between the hour, minute, and AM/PM fields.
   - Scroll up or down to change the hour, minute, and AM/PM.
4. Press the **OK** key to save the time.
5. Select **Done**.

**Enable Airplane Mode**
While in an airplane, it is normally required that you turn off your mobile phone because it emits RF signals that interfere with air traffic control. In airplane mode, however, your phone does not emit RF signals. You cannot make or receive calls, send text messages, use Bluetooth, but you can play games, use the Scheduler, set the clock, and make emergency calls to designated emergency numbers. Please check with uniformed personnel before operating your phone in Airplane mode.

From **Airplane Mode**, select **Enabled > OK** to activate airplane mode.

With airplane mode enabled, you can also set the time and date manually.

**Auto Keyguard**

Enable Auto Keyguard
Use **Auto Keyguard** to automatically lock the keypad after 30 seconds of inactivity to prevent accidental key presses.

From **Auto Keyguard**, select **Enabled** or from the home screen, press and hold the Back key.

Unlock Keyguard
From the home screen, select **Unlock** and press the **OK** key to unlock the keypad.

**Enable Auto-Hyphenation**
Auto-hyphenation, when enabled, automatically inserts hyphens into your phone numbers to be consistent with the U.S. dialing plan (or the North American Numbering Plan).

From **Auto-Hyphen**, select **Enabled** to turn on auto-hyphenation.
Use 1-Touch Dialing
The 1-Touch Dialing feature is the fastest way to call a speed dial location. To call a contact with speed dial, press and hold the speed dialing location.
If it is a two-digit location, press the first digit briefly, then press and hold the second digit.
Note: To use 1-Touch dialing, you must enable 1-Touch dialing on your phone and have a speed dial location assigned to a contact.
From 1-Touch Dialing, select Enabled to turn on 1-touch dialing.

Place a Call on Hold
You can place a call on hold with Answer Hold enabled.
Note: If you are already on a call and you receive another call, you cannot place the incoming call on hold. With no call waiting enabled, the call goes to Voicemail.
When a call comes in, do the following:
1. Select Options > Answer Hold to place the caller on hold with your recorded hold message.
2. Select Answer to speak to the caller on hold or End Call to hang up without speaking.

Change Hold Call Message
1. From Answer Hold, select Re-Record Msg.
2. Record the message twice, as prompted.
3. Select Save to save the message or Options and one of the following:
   – Play to replay your message.
   – Re-Record to record your message again.
   – Exit to exit.

Call Contact using Fast Find
1. From Fast Find, select Enabled to turn on fast find.
2. From the home screen, press the keys corresponding to the letters of the name you want to find. A matching contact or speed dial entry appears.
3. Scroll to your desired contact and press the Send key to call the number.
Enable Frequent List
From Frequent List, select Enabled. With Frequent List enabled, the last 15 of your most frequently called contacts appear at the beginning of your contacts list. Scroll past the double line to view the entire contacts list.

Enable Minute Alert
From Minute Alert, select Enabled. Your phone alerts you with a short beep ten seconds before each minute passes during a call.

Set Missed Call Alert
From Missed Call Alert, select an alert type for missed calls. If you select an & Remind alert, the phone notifies you once when receiving a new message and notifies you again every five minutes. To stop a reminder alert, select Ignore.

Enable Any Key Answer
From Any Key Answer, select Enabled to answer calls when you press any key on the keypad.

Customize Keys
You can modify the Navigation key and Left softkey settings to set up your desired shortcut.  
1. From Customize Keys, select Up Nav Key, Left Nav Key, Right Nav Key, Down Nav Key, or Left Soft Key.  
2. Select your desired menu option for the targeted key shortcut.

Accessories

Set Headset Sounds
With a headset attached to your phone, you can play the ringer through the headset or phone speaker. From Headset Sounds, select Out of phone (ringing from the phone speaker) or Out of headset (ringing from the headset).

Enable Auto-Answer
From Auto-Answer, select After 5 Seconds. The phone automatically answers after five seconds with a headset attached.

Memory Card

Choose Files to Save
1. From Memory Card, select Items to Save to choose what files you save to your memory.  
2. Select file types from the list provided. A checkmark appears next to each file type that is saved to the memory card. Press the OK key to add or remove checkmarks.  
3. When finished, select Done.

Format Memory Card
From Memory Card, select Format Card > Yes to format your memory card. 
Note: Formatting will erase all current information on the memory card.
Connect to TTY Device
You can connect the phone to a teletype (TTY) device for the hearing impaired. (TTY device sold separately.)

**Note:** Enable TTY only when using the phone with a TTY device.

1. Connect the TTY device to your phone.
2. From **TTY Device**, select **OK** to clear the notification.
3. Select one of the following:
   - **TTY Off** disables TTY.
   - **TTY On** enables TTY devices.
   - **TTY On + Talk** enables TTY devices and voice carry over.
   - **TTY On + Hear** enables TTY devices and hearing carry over.

**Note:** You can also enter **##889** with your keypad and select **TTY** to enable TTY.

Connect to Hearing Aid Device
With a T-coil hearing aid device (sold separately) connected, you can enable the hearing aid feature.

1. Connect the T-coil hearing aid device to your phone.
2. From **T-coil Hearing Aid**, select **OK > Enabled**.

Network

Enable Privacy Alert
From **Privacy Alert**, select **Enabled** to set your phone to alert you when enhanced digital CDMA privacy is lost or regained.

Enable Voice Privacy
From **Voice Privacy**, select **Enhanced** to use enhanced digital CDMA privacy.

Enable Roaming Service Alert
Use this setting if you want the phone to alert you when you roam outside of your home service area.

From **Roam/Svc Alert**, select one of the following:

- **Disabled** turns roaming service alert off.
- **When no svc** alerts you with three tones decreasing in pitch when service is lost and three tones increasing in pitch when service is acquired again.
- **On roam change** alerts you with two decreasing tones when roaming service is acquired and three increasing tones when home area service is acquired again.
- **On any change** alerts you with three increasing tones if there is a change in roaming service or three decreasing tones if the phone loses service.
Set Roaming Restrictions
You can restrict your phone from making a call when roaming.
From **Roam Option**, select **Automatic** (to allow roaming) or **No Roaming** (to disallow roaming).

Enable Roaming Call Alert
You can set the phone to warn you before you answer or place a call while roaming.
**Note:** Call prompt is disabled when the phone is in Emergency Mode.
From **Roam Call Alert**, select **Enabled**.
The phone emits a distinctive ring to indicate when you are roaming during a call. To accept or place a call while roaming, you must press 1.

Security
This section describes the security features on your phone. You can adjust these features to prevent access to your personal information.
All security features are shielded by a four-digit lock code (typically 0000 or the last 4 digits of your phone number).

Lock Phone
Set Lock Phone
With your phone locked, you can call only emergency numbers or your service provider’s customer service number. You can still receive incoming calls.
1. From **Security**, enter your four-digit lock code.
2. Select **Lock Phone > OK** and one of the following:
   – **On power up** locks the phone every time you turn it on.
   – **Now** locks the phone immediately.

Unlock the Phone
1. From the home screen, select **Unlock**.
2. Enter your four-digit lock code.

Set Limit Calls
You can limit the calls that can be made from your phone to emergency numbers, your contacts, and your service provider’s numbers.
1. From **Security**, enter your four-digit lock code.
2. Select **Limit Calls** and one of the following:
   – **No Limit** does not limit calls.
   – **Limit Outgoing** limits outgoing calls while incoming calls still work.
   – **Limit All** limits both incoming and outgoing calls.
Change Lock Code
Change your lock code from the default.
1. From Security, enter your four-digit lock code.
2. Select New Lock Code > Yes.
3. Enter a new four-digit code.
4. Re-enter your new lock code.

Memory Status

Check Phone Memory
From Phone Memory, check how much memory is being used by your phone.

Check Card Memory
From Card Memory, check how much memory is being used by your memory card.
13 Get Help

User Guide
From Phone Info, select User Guide to access the user guide for your phone. You can also find the user guide at www.kyocera-wireless.com/support.

Customer Support
Your service provider’s customer support department may be accessible directly from your phone when you dial a number, such as *611 (check with your service provider). They can answer questions about your phone, phone bill, call coverage area, and specific features available to you, such as call forwarding or voicemail. For questions about the phone features, refer to the materials provided with your phone, or visit www.kyocera-wireless.com.
For additional questions, you may contact the Kyocera Communications Inc. Customer Care Center in any of the following ways:
• Email: phone-help@kyocera-wireless.com.
• Phone:
  – U.S. and Canada: 1-800-349-4478 or 1-858-882-1401
  – Puerto Rico: 1-866-664-6443
Before requesting support, please try to reproduce and isolate the problem. When you contact the Customer Care Center, be ready to provide the following information:
  • The name of your service provider.
  • The actual error message or problem you are experiencing.
  • The steps you took to reproduce the problem.
  • The phone’s mobile equipment identifier (MEID).

Note: From Phone Info, select Build Info. Scroll down to MEID. The 18-digit number is the MEID number. If your phone uses an electronic service number (ESN), ESN replaces MEID.

Qualified Service
If the problem with your phone persists, return the phone with all accessories and packaging to the dealer for qualified service.

Phone Accessories
To shop for phone accessories, visit www.kyocera-wireless.com/store. You may also call us at 800-349-4188 (U.S.A. only) or 858-882-1410.

Become a Product Evaluator
To participate in the testing and evaluation of Kyocera Communications Inc. products, including cellular or PCS phones, visit beta.kyocera-wireless.com.
