82-A6238-1EN, Rev. 001
a substantial safety margin designed to assure the safety of all persons, regardless of age and health.

The exposure standard for wireless mobile phones employs a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit set by the FCC is 1.6 W/kg.*

Tests for SAR are conducted using standard operating positions specified by the FCC with the phone transmitting at its highest certified power level in all tested frequency bands.

Although the SAR is determined at the highest certified power level, the actual SAR level of the phone while operating can be well below the maximum value. This is because the phone is designed to operate at multiple power levels so as to use only the power required to reach the network. In general, the closer you are to a wireless base station antenna, the lower the power output.

Before a phone model is available for sale to the public, it must be tested and certified to the FCC that it does not exceed the limit established by the government-adopted requirement for safe exposure. The tests are performed in positions and locations (e.g., at the ear and worn on the body) as required by the FCC for each model.

Body-worn measurements differ among phone models, depending upon availability of accessories and FCC requirements. While there may be differences between the SAR levels of various phones and at various positions, they all meet the government requirement for safe exposure.

The FCC has granted an Equipment Authorization for this model phone with all reported SAR levels evaluated as in compliance with the FCC RF emission guidelines.

The highest reported SAR values of this phone are:

**Cellular CDMA mode (Part 22):**
Head: 1.01 W/kg; Body-worn: 0.72 W/kg

**PCS mode (Part 24):**
Head: 1.46 W/kg; Body-worn: 0.64 W/kg

**AWS mode (Part 27):**
Head: 0.99 W/kg; Body-worn: 0.78 W/kg

SAR information on this model phone is on file with the FCC and can be found under the Display Grant section [www.fcc.gov/oet/ea/fccid](http://www.fcc.gov/oet/ea/fccid) after searching on the FCC ID: OVF-K5502.

Additional information on SAR can be found on the Cellular Telecommunications and Internet Association (CTIA) web-site at [www.ctia.org](http://www.ctia.org).

* In the United States and Canada, the SAR limit for mobile phones used by the public is 1.6 watts/kg (W/kg) averaged over one gram of tissue.

**Bluetooth® Certification**

For information about S2100 Bluetooth Certification, visit the Bluetooth Qualification Program Web site at [www.bluetooth.org/tpg/listings.cfm](http://www.bluetooth.org/tpg/listings.cfm).

**Caution**

The user is cautioned that changes or modifications not expressly approved by the party responsible for compliance could void the warranty and user’s authority to operate the equipment.

**Optimize your Phone’s Performance**

Use the instructions in this guide to learn how to optimize the performance and life of your phone and battery.

**Air Bags**

If you have an air bag, DO NOT place installed or portable phone equipment or other objects over the air bag or in the air bag deployment area. If equipment is not properly installed, you and your passengers risk serious injury.

**Medical Devices**

**Pacemakers**—Warning to pacemaker wearers: Wireless phones, when in the ‘on’ position, have been shown to interfere with pacemakers. The phone should be kept at least six (6) inches away from the pacemaker to reduce risk.
The Health Industry Manufacturers Association and the wireless technology research community recommend that you follow these guidelines to minimize the potential for interference.

- Always keep the phone at least six inches (15 centimeters) away from your pacemaker when the phone is turned on.
- Do not carry your phone near your heart.
- Use the ear opposite the pacemaker.
- If you have any reason to suspect that interference is taking place, turn off your phone immediately.

**Hearing aids**—Some digital wireless phones may interfere with hearing aids. In the event of such interference, you may want to call the customer service line to discuss alternatives.

**Other medical devices**—If you use any other personal medical device, consult the manufacturer of the device to determine if it is adequately shielded from external RF energy. Your physician may be able to help you obtain this information.

**In health care facilities**—Turn your phone off in health care facilities when instructed. Hospitals and health care facilities may be using equipment that is sensitive to external RF energy.

**Potentially unsafe areas**

**Posted facilities**—Turn your phone off in any facility when posted notices require you to do so.

**Aircraft**—FCC regulations prohibit using your phone on a plane that is in the air. Turn your phone off or switch it to Airplane Mode before boarding aircraft.

**Vehicles**—RF signals may affect improperly installed or inadequately shielded electronic systems in motor vehicles. Check with the manufacturer of the device to determine if it is adequately shielded from external RF energy.

**Blasting areas**—Turn off your phone where blasting is in progress. Observe restrictions, and follow any regulations or rules.

**Potentially explosive atmospheres**—Turn off your phone when you are in any area with a potentially explosive atmosphere. Obey all signs and instructions. Sparks in such areas could cause an explosion or fire, resulting in bodily injury or death. Areas with a potentially explosive atmosphere are often, but not always, clearly marked. They include:

- fueling areas such as gas stations
- below deck on boats
- transfer or storage facilities for fuel or chemicals
- vehicles using liquefied petroleum gas, such as propane or butane
- areas where the air contains chemicals or particles such as grain, dust, or metal powders
- any other area where you would normally be advised to turn off your vehicle engine

**Use with Care**

Use only in normal position (to ear). Avoid dropping, hitting, bending, or sitting on the phone.

**Avoid Magnetic Environments**

Keep the phone away from magnets which can cause improper functioning of the phone.

**Keep Your Phone Dry**

Keep the phone dry. Damage can result if the phone gets wet. Water damage is not covered under warranty.

**Resetting the Phone**

If the screen seems frozen and the keypad does not respond to key presses, reset the phone by completing the following steps:

1. Remove the battery cover.
2. Remove and replace the battery.

If the problem persists, return the phone to the dealer for service.

**Accessories**

Use only Kyocera-approved accessories with Kyocera phones. Use of any unauthorized accessories may be dangerous and will void the phone warranty if said accessories cause damage or a defect to the phone.
Radio Frequency (RF) Energy

Your telephone is a radio transmitter and receiver. When it is on, it receives and sends out RF energy. Your service provider’s network controls the power of the RF signal. This power level can range from 0.006 to 0.6 watts.

In August 1996, the U.S. Federal Communications Commission (FCC) adopted RF exposure guidelines with safety levels for hand-held wireless phones. These guidelines are consistent with the safety standards previously set by both U.S. and international standards bodies in the following reports:

- ANSI C95.1 (American National Standards Institute, 1992)
- ICNIRP (International Commission on Non-Ionizing Radiation Protection, 1996)

Your phone complies with the standards set by these reports and the FCC guidelines.

E911 Mandates

Where service is available, this phone complies with the Phase I and Phase II E911 Mandates issued by the FCC.

Hearing Aid Compatibility (HAC) with Mobile Phones

Some mobile phones and hearing devices (hearing aids and cochlear implants), when used together, result in buzzing, humming, or whining noises detected by the user.

Some hearing devices are more immune than others to this interference noise, and phones also vary in the amount of interference they generate.

The wireless telephone industry has developed ratings for some of their mobile phones, to assist hearing device users in finding phones that may be compatible with their hearing devices. Not all phones have been rated.

Phones that are rated have the rating on their box or a label on the box. The ratings are not guarantees and results will vary depending on the user’s hearing device and hearing loss. If your hearing device happens to be vulnerable to interference, you may not be able to use a rated phone successfully. Trying out the phone with your hearing device is the best way to evaluate it for your personal needs.

M-Ratings—Phones rated M3 or M4 meet FCC requirements and are likely to generate less interference to hearing devices than phones that are not labeled. M4 is the better/higher of the two ratings.

T-Ratings—Phones rated T3 or T4 meet FCC requirements and are likely to be more usable with a hearing device’s telecoil (“T Switch” or “Telephone Switch”) than unrated phones. T4 is the better/higher of the two ratings. (Note that not all hearing devices have telecoils in them.)

Hearing devices may also be measured for immunity to this type of interference. Your hearing device manufacturer or hearing health professional may help you choose the proper rating for your mobile phone. The more immune your hearing aid is, the less likely you are to experience interference noise from mobile phones.

For more information about hearing aid compatibility, visit the FCC’s Consumer & Governmental Affairs Bureau Web site at www.fcc.gov/cgb/dro.

1 Get Started

Phone Battery

Install the Battery
1. Hold the phone face down.
2. Find notch directly below the back cover. It is square. Using your thumbnail, lift the cover to remove.
3. Place the battery in the battery casing with the metal contacts facing toward the bottom of the phone. The metal contacts of the battery must make contact with the metal contacts of the battery casing.
4. Replace the battery door by lining up the notches with the openings at the top and on each side of the battery casing.
5. Snap the cover into place.

Charge the Battery
1. Connect the AC adapter to the Micro-USB jack on the side of the phone.
2. Plug the adapter into a wall outlet.

The battery icon in the upper-right corner of the screen tells you whether the phone is:
- Charging (the icon is animated)
- Partially charged
- Fully charged
You must have at least a partial charge in the battery to make or receive calls. You can safely recharge the battery at any time, even if it has a partial charge.

Note: Before removing the battery, make sure the phone is powered off.
Battery Safety Guidelines

- Do not disassemble or open the battery.
- Do not crush, bend, deform, puncture, or shred the battery.
- Do not attempt to insert foreign objects into the battery.
- Do not immerse the battery or expose it to water or other liquids. Even if a battery appears to dry out and operate normally, internal parts can slowly corrode and pose a safety hazard.
- Always keep the battery between 15 °C and 25 °C (59 °F and 77 °F). Do not expose the battery to extremes of temperature (heat or cold), fire, or other hazards such as a cooking surface, iron, or radiator.
- Never use any damaged battery.
- Only use the battery for its intended phone.
- Only use the battery with a qualified charger. Use of an unqualified battery charger may present a risk of fire, explosion, leakage, or other hazard. If you are unsure about whether a charger is qualified, contact customer support.
- Do not short-circuit the battery or allow metallic conductive objects—such as keys, coins, or jewelry—to contact the battery’s terminals.
- Replace the battery only with another qualified battery. Use of an unqualified battery may present a risk of fire, explosion, leakage, or other hazard. If you are unsure about whether a replacement battery is compatible, contact customer support.
- Promptly dispose of used batteries in accordance with local regulations and recycle if possible. Do not dispose as household waste.
- Supervise all battery usage by children.
- Avoid dropping the phone or battery. If the phone or battery is dropped, especially on a hard surface, an internal short-circuit can occur and pose a safety hazard. If you suspect battery damage, take it to a service center for inspection.
- Improper battery use may result in a fire, explosion, or other hazard.

Common Causes of Battery Drain

- Playing games or using the Web.
- Taking pictures with the flash on.
- Keeping backlighting on.
- Operating when far away from a base station or cell site.
- Using data cables or accessories.
- Operating when no service is available, or service is available intermittently.
- High earpiece and ringer volume settings.
- Repeating sound, vibration, or lighted alerts.
Phone Overview

Get to Know Your Phone

The phone is shown here in the open position.

1. Earpiece speaker.
2. Home screen.
3. Left softkey selects items that appear on the lower left of the display. At the home screen, you can select Menu.
4. Navigation key scrolls through lists and text entry fields and accesses the following shortcuts from the home screen.
   - Scroll left to launch Browser.
   - Scroll right to go to Tools > Voice Memo.
   - Scroll up to create a custom menu shortcut.
   - Scroll down to go to Recent Calls.
5. Speakerphone key activates the speakerphone and answers incoming calls.
6. Send key starts or answers a call. Press once to display the recent calls list or twice to redial the last number dialed. Press and hold to activate voice commands.
7. Keypad for entering numbers, letters, or symbols.
8. * Shift key changes the text mode in text entry.
9. Right softkey selects items that appear on the lower right of the display. At the home screen, you can select Contacts.
10. OK key selects a menu item or option. At the home screen, you go to the main menu when you press the OK key.
11. Back key erases characters in text entry and returns you to the previous screen when navigating through menus.
12. End key turns the phone on and off, ends a call or browser session, and returns you to the home screen.
13. # Space key enters a space during text entry. Press and hold to activate or deactivate Silent mode.
14. 0 Next key cycles through word choices during text entry.
15. Microphone.
The phone is shown here in the closed position. When the phone is closed, the keys are locked to prevent accidental key presses.

1. Jack for a hands-free headset (sold separately).
2. Camera lens.
3. **Volume** key raises or lowers ringer volume.
4. **Camera** key activates camera mode. Press and hold the **Camera** key to activate camera mode.
5. External screen displays time and phone status.
6. Jack for AC adapter (included) and Micro-USB cable (sold separately).
7. Speakerphone speaker.

**Warning:** Inserting an accessory into the incorrect jack will damage the phone.

**Attach the Lanyard**

1. Hold the phone face down.
2. Find notch directly below the back cover. It is square. Using your thumbnail, lift the cover to remove.
3. Thread the lanyard around the notch on the upper left side.
4. Replace the battery door by lining up the notches with the openings at the top and on each side of the battery casing.
5. Snap the cover into place.
#### Screen Icons

These icons may appear on your phone’s screen.

**Note**: The menu items on your phone can change depending on the options provided by your service provider. Check with your service provider.
Guide Conventions

In this guide, the following conventions are used when describing phone features.

Select means to press the Left softkey, Right softkey or OK key to select an item seen on the display. For example, “Select Menu” tells you to physically press the left softkey to choose Menu from the display.

Press means to press a phone key. For example, “Press the Send key to make a phone call” tells you to physically press the Send key on your phone.

Scroll means to use the Navigation key to move through a list on the display. For example, “Scroll through your contacts list to choose a contact” means to physically press the Navigation key up or down to scroll through the list on the display.

> (greater than symbol) tells you to select an option from a menu or list. For example, “Menu > Settings” means to:

1. Press the left softkey to select Menu.
2. Scroll to the Settings option.
3. Press the OK key to select Settings.
2 Call Features

This section describes the basic features related to calls.

Power Phone Up

• To turn your phone on, press and hold the **End** key until the phone display lights up.
• To turn your phone off, press and hold the **End** key until the phone plays a short musical sound and turns off.

Make Phone Calls

Make sure you are in an area where a signal can be received. Look for the signal strength icon on the home screen. The more bars, the stronger the signal. If there are no bars, move to where the signal strength is better.

When the phone has been idle for a time, it cycles into power save mode. Press any key to return to normal operating mode.

There are several ways you can make a phone call.

Call Using a Number

1. Enter a phone number.
2. Press the **Send** key.

Call Using a Contact

1. From **View All**, highlight a contact.
2. Press the **Send** key.

Call Using Voice Commands

You can use voice commands to call a contact from your voice dial list or to dial a phone number. For more information, see “Voice Commands” on page 75.

Redial a Number

1. Press the **Send** key to open your call history.
2. Highlight a phone number or contact and press the **Send** key.

**Note:** To redial the last number called, received or missed, press the **Send** key twice.

Answer Phone Calls

When a call comes in, the phone rings, vibrates, or lights up. The phone number of the caller also appears if it is not restricted. If the number is stored in your contacts list, the contact’s name appears. There are several ways you can answer a phone call.

Answer Using Earpiece

Press the **Send** key.

Answer Using Speakerphone

Press the **Speakerphone** key.

End Phone Calls

Press the **End** key.
Activate Voice Dialing

1. Press and hold the Send key.
2. Follow the prompts.
For more information, see “Voice Commands” on page 75.

Volume Control

Adjust Volume during a Call
Press the Volume key up or down to adjust the earpiece volume during a call.

Use the Speakerphone
Your phone has a built-in speakerphone.
• To turn on the speakerphone, press the Speakerphone key. The speakerphone icon appears on the home screen when the speakerphone is on.
• To turn off the speakerphone, press the Speakerphone key again.

Note: If you press the Speakerphone key during an incoming call, you will answer the call.

Silence an Incoming Call
• To silence the phone without answering the call, press the Back key or press the Volume key up or down.
• To silence the phone and answer the call, press the Back key or press the Volume key up or down and then press the Send key.

Use Speed Dialing

Speed dialing allows you to assign a one- or two-digit shortcut to a contact. Before you can use speed dialing you must save a phone number as a contact and assign a speed dial location to it. See “Assign Speed Dials to Contacts” on page 29.

To call a contact that has a speed dial location:
1. Enter the one- or two-digit speed dial location.
2. Press the Send key.

Emergency Services

Call Emergency Services
You can call an emergency code even if your phone is locked or your account is restricted. When you call, your phone enters emergency mode. This enables the emergency service exclusive access to your phone to call you back, if necessary. To make or receive regular calls after dialing the code, you must exit this mode.

To dial an emergency code:
1. Enter the 3-digit emergency code.
2. Press the Send key.

Note: Regardless of the 3-digit emergency code (911, 111, 999, 000, etc.), your phone operates as described above.
Exit Emergency Services
When you have completed the emergency call:
1. Select Exit.
2. Select Exit again to confirm your choice.

Note: To determine who has access to your location, see “Set Location Information” on page 48.
You can enter letters, numbers, and symbols in contacts, text messages, and your banner.

### Text Entry Modes

The text entry screen has the following features:

1. The number of remaining characters you can type.
2. Text entry fields.
3. Current capitalization setting.
4. Current text entry mode.

**Note:** The entry mode defaults depending on the task you are doing. For example, when entering a phone number, you are in a number mode. When entering a name for a contact, you are in a letter mode.

#### Enter Numbers with Number Keypad

From the text entry field, select **Options > Numbers Only** to enter a number when you press a key once.

The `123` icon indicates you are in **Numbers Only** input mode. Press and hold the `* Shift` key to switch input modes.

#### Enter Letters with Number Keypad

From the text entry field, select **Options > Normal Alpha** to enter letters. You can enter text in the following ways:

- To enter a letter, press a key once for the first letter, twice for the second letter, and so on. If your phone is set to Spanish, accented letters are available. Wait for the cursor to move right and enter the next character. Press the `# Space` key to enter a space.
- To change case mode for a single letter, press that key until you see the letter case you want. To change the case mode, press the `* Shift` key.
- To enter a number, press and hold a number key until the number appears on the screen.

The `abc` icon indicates you are in **Normal Alpha** input mode. Press and hold the `* Shift` key to switch input modes.
Rapid Entry with Number Keypad
From the text entry field, select **Options > Rapid Entry** to check words you are trying to spell against a dictionary of common words. You can enter text in the following ways:

• To enter words, press a key once. For example, to enter the word “Glow” press the 4 > 5 > 6 keys. If the word doesn’t match what you want, press 0 Next key to look at other word matches. When you see the word you want, scroll right.

• To change case mode, press the * Shift key.

• To enter a number, press and hold a number key until the number appears on the screen.

The icon indicates you are in **Rapid Entry** input mode. Press and hold the * Shift input key to switch input modes.

Enter Symbols with Number Keypad
While entering text in **Normal Alpha** mode, you can enter symbols by pressing the 1 key until you see the symbol you want. Using this method, you have access to the following symbols:

. @ ? ! - , & : ‘

To access the full set of symbols:

1. From the text entry field, select **Options > Add Symbols**.

2. Scroll up or down to view the list of symbols.

3. Press the number key corresponding to the symbols to enter it.
## Text Entry Quick Reference

This table gives instructions for entering letters, numbers, and symbols.

<table>
<thead>
<tr>

</tbody>
</table>

Work with Call Lists

Return Any Call
1. From All, highlight a number.
2. Press the Send key to call the number or select Options to access more features.

Return a Received Call
1. From Incoming, highlight a number.
2. Press the Send key to call the number or select Options to access more features.

Return an Outgoing Call
1. From Outgoing, highlight a number.
2. Press the Send key to call the number or select Options to access more features.

This list contains all calls you have made.
Return a Missed Call
1. From Missed, highlight a number.
2. Press the Send key to call the number or select Options to access more features.
This list contains all calls you received, but did not answer.

Manage a Missed Call Alert
When you have missed a call, a “Missed Call” alert appears on your screen. You can do one of the following:
• To clear the screen, select Dismiss.
• To view the call details, select View or press the OK key.
• To return the call, select View and press the Send key.

Call List Options

Save Number from Call List
1. At a call list, highlight a number.
2. Select Options > Save.
3. Select Save New Contact to create a new contact or Add to Existing to add a number to an existing contact.

View Contact from Call List
1. At a call list, highlight a contact.
2. Select Options > View to see the contact details screen.

Send Text Message from Call List
1. At a call list, highlight a contact.
2. Select Options > Send Text Msg.
3. Complete your text message and select Send.

Send Multimedia Message from Call List
1. At a call list, highlight a contact.
2. Select Options > Send Picture Msg.
3. Complete your multimedia message and select Send.

Erase Call List Records

Erase a Single Record
1. At a call list, highlight a contact.
2. Select Options > Erase Record > Yes.

Erase a Call List
From Erase Call List, select a call list to erase records from. For example to erase all records from the incoming call list, select Incoming > Yes.

Erase All Call Lists
From Erase Call List, select All > Yes to erase all records from all call lists.
Work with Call Timers

View All Calls Timer
Select **Life Timer** to view the number of calls and the total call time. Select **Done** when finished.
This timer tracks all calls made and received for life of the phone and cannot be reset.

View Recent Calls Timer
Select **Recent Calls** to view the number of calls and the total call time. Select **Done** when finished.
This timer tracks all calls made and received since you last reset the timer. To reset this timer to zero, select **Reset > Yes**.

View Home Calls Timer
Select **Home Calls** to view the number of calls and the total call time. Select **Done** when finished.
This timer tracks all calls made and received in your home network since you last reset the timer. To reset this timer to zero, select **Reset > Yes**.

View Roam Calls Timer
Select **Roam Calls** to view the number of calls and the total call time. Select **Done** when finished.
This timer tracks all roaming calls made and received since you last reset the timer. To reset this timer to zero, select **Reset > Yes**.

View Data Counter
Select **Kilobyte Counter** to view the amount of kilobytes sent during data calls. Select **Done** when finished.
This timer tracks kilobytes sent during data calls made, data calls received, and for the life of the phone. To reset the data counter to zero, select **Options > Reset > Yes**.

Your phone can alert you with a short beep ten seconds before each minute passes during a call. For more information, see “Enable Minute Alert” on page 41.
5 Contacts

Use Contacts to store information about a person or company.

Contacts Menu

Select Contacts from the main menu to access the following functions:

</tbody>
</table>

Access Contacts

Access Contacts List

1. From View All, enter the first letter of your desired contact and scroll to highlight it.
2. Do one of the following:
   - Press the Send key to call the contact.
   - Press the OK key to view the contact’s details.
   - Select New to create a new contact.
   - Select Options to access more functions.

View Contact Details

1. From View All, select a contact.
2. At the contact details screen, highlight a number, address or note.
3. Select the detail you want to view. For example, to view a phone number, select Options > View Number.
Use Frequent List
With Frequent List enabled, you can view 15 of your most frequently called contacts. See “Enable Frequent List” on page 41.

Use Fast Find
With Fast Find enabled, you can press one or two keys to view closer matches in your contacts list. See “Call Contact using Fast Find” on page 41.

Add Contacts

Add Contacts from Home Screen
1. From the home screen, enter a phone number to save (include the area code).
2. Select Save > Save New Contact.
3. Enter a name for the contact.
4. Enter additional phone numbers, email addresses, and other contact details. (Scroll up or down to move through the contact fields.)
5. When done, select Save.

Add Contacts from Contacts Menu
1. From Add New, enter a name for the contact. Scroll down to the next field when done.
2. Enter a primary number for the contact.
3. Enter additional phone numbers, email addresses, and other contact details. (Scroll up or down to move through the contact fields.)
4. When done, select Save.

Add a Code or Extension
When saving the phone number of an automated service, you may include a pause for dialing an extension.
1. From the home screen, enter a phone number.
2. Select Options and a type of pause:
   – Time Pause causes the phone to stop dialing for two seconds.
   – Hard Pause causes the phone to wait until you select Release while making the call.
3. Enter the remaining numbers and select Save > Save New Contact.
4. Complete the contact information and select Save.

Use Contacts

Call Contacts
1. From View All, select a contact.
2. At the contact details screen, highlight a number.
3. Select Options > Call.
Send a Text Message to Contacts
1. From View All, select a contact.
2. At the contact details screen, highlight a number or email address.
3. Select Options > Send Text Msg.
4. Complete your text message and select Send.

Send a Multimedia Message to Contacts
1. From View All, select a contact.
2. At the contact details screen, highlight a number or email address.
3. Select Options > Send Pic Msg.
4. Complete your multimedia message and select Send.

Send a Contact vCard
1. From View All, select a contact.
2. At the contact details screen, highlight the contact name.
3. Select Options > Send as vCard > Via MMS (to attach to a multimedia message), Via Bluetooth (to send to a Bluetooth-enabled device), or To Printer (to print on a Bluetooth-enabled device).
4. Complete the appropriate task to send the contact information.

Note: If your phone has no Bluetooth feature, you may send the contact information with a message only.

Customize Contacts

Edit Contact Details
1. From View All, select a contact.
2. At the contact details screen, select Edit.
3. Enter additional phone numbers, email addresses, and other contact details. (Scroll up or down to move through the contact fields.)
4. When done, select Save.

Assign Number Types
1. From View All, select a contact.
2. At the contact details screen, select Edit.
3. Press down twice to scroll to the number type dropdown and press the OK key.
4. Select a number type. The appropriate icon appears next to the number in your contacts list.
5. Select Save.

Assign Ringers to Contacts
1. From View All, select a contact.
2. At the contact details screen, highlight the contact name.
3. Select Options > Ringer > Assign Ringer and a ringer from the list. (Scroll to play the ringers.)
Assign Message Tones to Contacts
1. From View All, select a contact.
2. At the contact details screen, highlight the contact name.
3. Select Options > Msg Tone > Assign Msg Tone and a ringer from the list. (Scroll to play the ringers.)

Assign Pictures to Contacts
1. From View All, select a contact.
2. At the contact details screen, highlight the contact name.
3. Select Options > Picture > Assign Picture to assign a picture.

Add a Prefix to Phone Numbers
Use Prepend to add a prefix, such as an area code, to a phone number:
1. From View All, select a contact.
2. At the contact details screen, highlight a number.
3. Select Options > Prepend to enter the prefix at the beginning of the number.
4. Select Save.

Assign Speed Dials to Contacts
1. From View All, select a contact.
2. At the contact details screen, highlight a number.
3. Select Options > Add Speed Dial.
4. Select a location from the list to assign the speed dial number.

Change Primary Numbers
When a contact has more than one number, the first number becomes the primary number by default. To change the contact’s primary number:
1. From View All, select a contact.
2. At the contact details screen, highlight a number.
3. Select Options > Primary Number > Yes.

Add Contacts to Groups
1. From View All, select a contact.
2. At the contact details screen, highlight a number or email address.
3. Select Options > Add to Group.
4. Select groups from the list provided. A checkmark appears next to each selection. You can also remove a checkmark.
5. When finished, select Done.

Visit Web Addresses
1. From View All, select a contact.
2. At the contact details screen, highlight a Web address.
Erase Contacts

Erase Contact Details
1. From View All, select a contact.
2. At the contact details screen, highlight a number, address or note.
3. Select your desired erase option and then select Yes. For example, to erase an address, select Options > Erase Address > Yes.

Erase an Entire Contact
1. From View All, select a contact.
2. At the contact details screen, highlight the contact name.
3. Select Options > Erase Contact > Yes to erase the entire contact.

Erase All Contacts
From Erase Contacts, select Contacts Only > Yes > Yes to erase all your contacts.
Note: You cannot recover deleted information.

Erase All Contacts and Groups
From Erase Contacts, select Erase All > Yes > Yes to erase all your contacts and groups.
Note: You cannot recover deleted information.

Contact Groups
You can assign your contacts to groups. Your phone comes with default groups. You can also create your own groups.

View Groups
1. Select Groups to view your preloaded groups, followed by the custom groups you have created.
2. Highlight a group and do one of the following:
   – Press the OK key to view the group details.
   – Select New to create a new group.
   – Select Options to access more functions.

Create a New Group
1. From Groups, select New.
2. Enter a name for the group and select Next.
3. Select contacts from the list provided. A checkmark appears next to each selection. You can also remove checkmarks.
4. When finished, select Done.
Your new group appears the next time you view your groups list.

Send Text Messages to Groups
1. From Groups, highlight a group.
2. Select Options > Send Text Msg.
3. Complete your text message and select Send.
Send Multimedia Messages to Groups
1. From **Groups** list, highlight a group.
2. Select **Options > Send Pic Msg**.
3. Complete your multimedia message and select **Send**.

Add or Remove Contacts from Groups
1. From **Groups**, highlight a group.
2. Select **Options > Edit**.
3. If you are modifying a group you created, select **Next**. Otherwise, go to the next step.
4. Select contacts from the list provided. A checkmark appears next to each contact in the group. Press the **OK** key to add or remove checkmarks.
5. When finished, select **Done**.

Assign Ringers to Groups
1. From **Groups**, select a group.
2. At the group details screen, scroll to the group name.
3. Select **Options > Ringer > Assign Ringer** and a ringer from the list. (Scroll to play the ringers.)

Assign Pictures to Groups
1. From **Groups**, select a group you have created.
2. At the group details screen, scroll to the group name.
3. Select **Options > Picture > Assign Picture** to assign a picture.

Send a Group vCard
1. At the **Groups** list, highlight a group.
2. Select **Options > Send as vCard > Via Bluetooth**.
3. Complete the appropriate task to send the group information.

Erase a Group
1. From **Groups**, highlight a group.
2. Select **Options > Erase > Yes**.

Erase All Groups
From **Erase Contacts**, select **Groups Only > Yes > Yes** to erase all your groups.

**Note:** You cannot recover deleted information or erase preloaded groups.

Assign Message Tones to Groups
1. From **Groups**, select a group.
2. At the group details screen, scroll to the group name.
3. Select **Options > Msg Tone > Assign Msg Tone** and a ringer from the list. (Scroll to play the ringers.)
**Speed Dial List**

**Assign Speed Dial Numbers**
1. From Speed Dial List, highlight an unassigned number (marked as empty).
2. Select Assign.
3. At the contacts list, select a contact.
4. At the contact details screen, select a phone number.

**Clear Speed Dial Numbers**
1. From Speed Dial List, highlight an assigned number.
2. Select Erase > Yes.

**Voice Dial List**

**Enable Voice Dial Tags**
Your phone creates a voice dial tag for each contact that has a name field which is not blank or a name that is more than five syllables. You can enable or disable the voice dial tags associated with your contacts.
1. From Voice Dial List, press the OK key to add or remove checkmarks. A checkmark appears next to each enabled voice dial.
   (Scroll through the list to play the voice dial tags.)
2. When done, select Save.

**Search Contact Voice**
You can use voice commands to find a contact in your voice dial list. For more information, see “Find a Contact” on page 76.

**Check Contacts**
Select Contacts Count to check how many contacts you have stored.
6 Media Gallery

Use Media Gallery to retrieve and playback media files and other downloads.

Media Gallery Menu
Select Media Gallery from the main menu to access the following functions:

<table>
<thead>
<tr>
<th>Level 1 &gt;</th>
<th>Level 2 &gt;</th>
<th>Level 3</th>
</tr>
</thead>
<tbody>
<tr>
<td>Media Gallery</td>
<td>Images</td>
<td>Access these options: Camera Pictures, Saved Images, Wallpapers, Wallpaper Shuffle, Screensavers, and Caller IDs.</td>
</tr>
<tr>
<td></td>
<td>Sounds</td>
<td>Access these options: Saved Sounds, Ringers, Ringer Shuffle, and Voice Memos.</td>
</tr>
<tr>
<td></td>
<td>Delete All</td>
<td>Access these options: Camera Pics Only, Images Only, Sounds Only, and Delete All.</td>
</tr>
</tbody>
</table>

Images

Send a Picture
1. From Camera Pictures, select a picture.
2. Select Send > Via MMS (to attach to a multimedia message), Via Bluetooth (to send to a Bluetooth-enabled device), or To Printer (to print on a Bluetooth-enabled device).
3. Complete the appropriate task.
Note: If your phone has no Bluetooth feature, you may send the file with a message only.

Send an Image
1. From Saved Images, select an image.
2. Select Send > Via MMS (to attach to a multimedia message), Via Bluetooth (to send to a Bluetooth-enabled device), or To Printer (to print on a Bluetooth-enabled device).
3. Complete the appropriate task.
Note: If your phone has no Bluetooth feature, you may send the file with a message only.

Change the Default Wallpaper
1. From Wallpapers, select a wallpaper.
2. Select Set Default.
Edit the Wallpaper Shuffle
1. From Wallpaper Shuffle, select Edit. With no wallpapers saved, you need to add files.
2. Select Add to include a file in the shuffle, Remove to remove a file from the shuffle, or Options to access more features.
3. When finished, select Options > Done.

Change the Default Screensaver
1. From Screensavers, select a screensaver.
2. Select Set Default.

Assign a Caller ID
1. From Caller IDs, select an image.
2. Select Assign.
3. At the contacts list, select a contact.

Sounds

Send a Sound
1. From Saved Sounds, highlight a sound.
2. Select Send > Via MMS (to attach to a multimedia message) or Via Bluetooth (to send to a Bluetooth-enabled device).
3. Complete the appropriate task.
Note: If your phone has no Bluetooth feature, you may send the file with a message only.

Assign a Ringer
1. From Ringers, highlight a ringer.
2. Select Assign and choose how you want to assign the ringer.
3. Complete the appropriate task.

Edit the Ringer Shuffle
1. From Ringer Shuffle, select Edit.
2. Select Add to include a file in the shuffle, Remove to remove a file from the shuffle, or Options to access more features.
3. When finished, select Options > Done.
You can only edit the shuffle with at least a file added.

Play a Voice Memo
1. From Voice Memos, highlight a memo you have recorded.
2. Select Play.
Use the Navigation key to control the playback tools displayed.

Media File Options

Rename a File
1. From a media file list, highlight a file.
2. Select Options > Rename.
3. Enter a new name and select Save.
You can only rename unlocked files. Preloaded files on your phone are always locked.
Send a File
1. From a media file list, highlight a file.
2. Select **Options > Send > Via MMS** (to attach to a multimedia message), **Via Bluetooth** (to send to a Bluetooth-enabled device), or **To Printer** (to print on a Bluetooth-enabled device). The options available depend on the file type.
3. Complete the appropriate task.
**Note:** If your phone has no Bluetooth feature, you may send the file with a message only.

Send a File to an Online Location
1. From a media file list, highlight a file.
2. Select **Options > Send to Online**.

Assign a File
1. From a media file list, highlight a file.
2. Select **Options > Assign** and choose how to assign the file.
3. Complete the appropriate task.

Lock a File
1. From a media file list, highlight a file.
2. Select **Options > Lock** to protect a file from being accidently erased. To unlock the file, select **Options > Unlock**.

Play a File
1. From a media file list, highlight a file.
2. Select **Options > Play**.
   Use the **Navigation** key to control the playback tools displayed.

Add Files to a Shuffle
1. From a media file list, highlight a file.
2. Select **Options > Shuffle** to add the file to the applicable shuffle.

View File Details
1. From a media file list, highlight a file.
2. Select **Options > Details** to view the details such as file size or save date.
3. Select **OK** to exit.

Modify a File
1. From a media file list, select a file.
2. Select **Options > Modify**.
3. Select **Options** and an option to rotate, resize, and so on.
4. When done, select **Save** to save over an existing file or as a new one.

Use the Zoom
1. From a media file list, select a file.
2. Select **Options > Zoom**.
3. Use the **Navigation** key to zoom in and out.
4. Select **Cancel** to exit.
View a Slideshow
1. From Camera Pictures, select Options > Slideshow to play the slideshow of the files contained in the current folder.
2. Select Pause (to stop), Play (to resume), or Options (to access more features).
   With Options selected, your phone automatically pauses the slideshow.
3. When you are done, select Options > Exit.

Erase Media Files

Erase a Single File
1. From a media file list, highlight a file.
2. Select Options > Erase > Yes.
You can only erase unlocked files. Preloaded files on your phone are always locked.

Erase All Files in a Folder
From a media file list, select Options > Erase All > Yes.
Note: You can only erase unlocked files. Preloaded files on your phone are always locked.

Erase All Pictures
From Delete All, select Camera Pics Only > Yes to erase all files in the Camera Pictures folder.
Note: You can only erase unlocked files.

Erase All Image Files
From Delete All, select Images Only > Yes to erase all files in the Images folder.
Note: You can only erase unlocked files. Preloaded files on your phone are always locked.

Erase All Sound Files
From Delete All, select Sounds Only > Yes to erase all files in the Sounds folder.
Note: You can only erase unlocked files. Preloaded files on your phone are always locked.

Erase All Media Files
From Delete All, select Delete All > Yes to erase all files in the Media Gallery folder.
Note: You can only erase unlocked files. Preloaded files on your phone are always locked.
## Settings Menu

Bluetooth

The Bluetooth® wireless technology (not available on all phones) enables wireless connectivity with accessories such as portable or installed hands-free car kits, phones, handsets, computers, and so on. For details, check with your service provider.

You must use a Bluetooth device (compatible with Class 2 Bluetooth wireless technology, version 1.2) in order to use this phone wirelessly. Bluetooth accessories display a symbol on your phone.

Enable Bluetooth

Before you can connect your phone with a Bluetooth device, you need to enable the Bluetooth feature on your phone.

From On/Off, select On.

Pair with a Device

To enable your phone to communicate with a Bluetooth device, you need to "pair" the device with your phone. The following instructions describe the process. You may also need to reference the user guide provided with your Bluetooth device.

1. Prepare the Bluetooth device (accessory) for pairing as described in the device’s user guide.
2. From My Devices, select Find New. Your phone then searches and detects any available Bluetooth devices in the vicinity.
3. At the device list, highlight a device and select Add.
4. If necessary, enter the password provided with the Bluetooth device and select OK.

With the password accepted, the device appears in your device list.

Use Bluetooth Devices

Connect to a Device

Before you can use Bluetooth, you must get your phone ready to communicate with a device. This is called “connecting.”

To connect your phone to a Bluetooth device, from My Devices, highlight a device and select Connect.

A notification appears confirming the connection. You can now use the device with your phone.

Disconnect from a Device

From My Devices, highlight a connected device and select Disconnect.

Rename a Device

1. From My Devices, highlight a device.
2. Select Options > Rename.
3. Enter a new name and select Save.
Delete a Device
You can delete a Bluetooth device that you have paired your phone with.
1. From My Devices, highlight a device.
2. Select Options > Delete > Yes.

View Device Services
A Bluetooth device paired with your phone may have more than one service profile (such as Headset, Handsfree, and so on). Do the following to check the services available:
1. From My Devices, highlight a device.
2. Select Options > Services.
3. At the service list, highlight a profile and select Connect to change the active profile.

Change Bluetooth Settings
From Settings, you can modify the following Bluetooth features.

Change Phone’s Name
You can change the name presented for other Bluetooth devices’ search of your phone.
From My Name, enter a new name and select Save.

Limit Visibility
You can limit the time your phone is visible to other Bluetooth devices.
From Visibility, select an option to set the phone visible for your selected time before becoming invisible.

View Supported Services
Select Services to view a list of the Bluetooth service profiles your phone supports.

Enable OBEX Authentication
From OBEX Authentication, select Enabled. With object exchange (OBEX) authentication enabled, you need a user name and password to transfer files via Bluetooth.

Convenience
Use these settings to make your phone more convenient to use.

Set Date and Time
In Airplane mode, you can set the time and date manually.
Note: You can only access Set Time/Date with Airplane Mode enabled.
1. From Set Time/Date, do the following to change the date:
   – Scroll left or right to move between the month, day, and year fields.
   – Scroll up or down to change the month, day, and year.
2. Press the OK key to save the date.
3. Do the following to change the time:
   – Scroll left or right to move between the hour, minute, and AM/PM fields.
   – Scroll up or down to change the hour, minute, and AM/PM.
4. Press the OK key to save the time.
5. Select Done.
Enable Airplane Mode
While in an airplane, it is normally required that you turn off your mobile phone because it emits RF signals that interfere with air traffic control. In airplane mode, however, your phone does not emit RF signals. You cannot make or receive calls, send text messages, use the Browser or Bluetooth, but you can play games, use the Scheduler, set the clock, and make emergency calls to designated emergency numbers. Please check with uniformed personnel before operating your phone in Airplane mode.
From Airplane Mode, select Enabled > OK to activate airplane mode.
With airplane mode enabled, you can also set the time and date manually.

Enable Auto-Hyphenation
Auto-hyphenation, when enabled, automatically inserts hyphens into your phone numbers to be consistent with the U.S. dialing plan (or the North American Numbering Plan). From Auto-Hyphen, select Enabled to turn on auto-hyphenation.

Use 1-Touch Dialing
The 1-Touch Dialing feature is the fastest way to call a speed dial location. To call a contact with speed dial, press and hold the speed dialing location.
If it is a two-digit location, press the first digit briefly, then press and hold the second digit.
Note: To use 1-Touch dialing, you must enable 1-Touch dialing on your phone and have a speed dial location assigned to a contact.
From 1-Touch Dialing, select Enabled to turn on 1-touch dialing.

Answer Hold
Enable Hold Call
Use Answer Hold to place incoming calls on hold until you are ready to answer them.
1. From Answer Hold, select Enabled.
   If you have not recorded a hold message, you need to record one, such as “Please hold. I’ll answer in a minute.”
2. Record the message twice, as prompted.
3. Select Save or Options and one of the following:
   – Play to replay your message.
   – Re-Record to record your message again.
   – Exit to exit.
The next time a call comes in, you can place it on hold.

Place a Call on Hold
You can place a call on hold with Answer Hold enabled.
Note: If you are already on a call and you receive another call, you cannot place the incoming call on hold. With no call waiting enabled, the call goes to Voicemail.
When a call comes in, do the following:
1. Select **Options > Answer Hold** to place the caller on hold with your recorded hold message.
2. Select **Answer** to speak to the caller on hold or **End Call** to hang up without speaking.

**Change Hold Call Message**
1. From **Answer Hold**, select **Re-Record Msg**.
2. Record the message twice, as prompted.
3. Select **Save** to save the message or **Options** and one of the following:
   - **Play** to replay your message.
   - **Re-Record** to record your message again.
   - **Exit** to exit.

**Call Contact using Fast Find**
1. From **Fast Find**, select **Enabled** to turn on fast find.
2. From the home screen, press the keys corresponding to the letters of the name you want to find. A matching contact or speed dial entry appears.
3. Scroll to your desired contact and press the **Send** key to call the number.

**Enable Frequent List**
From **Frequent List**, select **Enabled**. With **Frequent List** enabled, the last 15 of your most frequently called contacts appear at the beginning of your contacts list. Scroll past the straight line to view the entire contacts list.

**Enable Minute Alert**
From **Minute Alert**, select **Enabled**. Your phone alerts you with a short beep ten seconds before each minute passes during a call.

**Set Missed Call Alert**
From **Missed Call Alert**, select an alert type for missed calls.
If you select an **& Remind** alert, the phone notifies you once when receiving a new message and notifies you again every five minutes. To stop a reminder alert, select **Ignore**.

**Enable Open to Answer**
From **Open to Answer**, select **Enabled** to answer calls by opening the phone.

**Enable Any Key Answer**
From **Any Key Answer**, select **Enabled** to answer calls when you press any key on the keypad.
Customize Keys
You can modify the Navigation key and Left softkey settings to set up your desired shortcut.
1. From Customize Keys, select UP Key, LEFT Key, RIGHT Key, DOWN Key, or Left Soft Key.
2. Select your desired menu option for the targeted key shortcut.

Create a Custom Menu
1. From the home screen, scroll up and hold.
2. Select Edit.
3. Select features from the list provided. A check mark appears next to each selection. You can also remove checkmarks.
4. Select Save after selecting all your options. Your new selections appear the next time you select your custom menu.

Display

Set Wallpaper
You can select a wallpaper for your phone’s home screen.
1. From Set Wallpaper, select Camera Pictures, Saved Images, or Wallpapers.
   To turn off wallpaper, select None.
2. Select a file. You may need to resize or crop the file.
3. Select Done.

Wallpaper Shuffle
Enable Wallpaper Shuffle
From Wallpaper Shuffle, select Enable to turn on wallpaper shuffle.

Edit Wallpaper Shuffle
1. From Wallpaper Shuffle, select Edit.
2. Select Add (to include a file in the shuffle) or Remove (to remove a file from the shuffle).
3. When finished, select Options > Done.

View Wallpaper Shuffle
1. From Wallpaper Shuffle, select View. The files in your shuffle appear.
2. Select Edit to modify the shuffle list or press the Back key to exit.

Set Wallpaper Shuffle Interval
1. From Wallpaper Shuffle, select Set Shuffle Time.
2. Select an interval time from the list. Your wallpaper changes to another file in the shuffle at the selected interval time.

Set Screensaver
Screensavers appear on the home screen, activated ten seconds after the last keypress. Incoming calls and alerts override the screensavers.
1. From **Set Screensaver**, select **Camera Pictures**, **Saved Images**, or **Screensavers**. To turn off screensaver, select **None**.
2. Select a file. You may need to resize or crop the file.
3. Select **Done**.

**Set Theme**
From **Themes**, select a color theme for the display background.

**Set Main Menu View**
From **Main Menu View**, select one of the following:
  - **Grid** displays icons of each menu item, with its name at the top of the screen.
  - **List** displays a list of all menu items.
The next time you view the **Menu**, your selected menu style appears.

**Set Greeting Banner**
The banner is the personal label for your phone, appearing on the home screen above the time and date.
1. From **My Banner**, select **Edit**.
2. Press the **Back** key to clear the current banner.
3. Enter your new text (up to 14 characters).
4. Select **Save**.

**Backlighting**

**Set Display Duration**
From **Backlighting**, select **Display Duration** and one of the following:
  - **Always Dim** forces the backlight to remain dim before turning off.
  - **7 Seconds, 10 Seconds, 15 Seconds, or 30 Seconds** turns backlighting on for the set time after your last keypress.
  - **Always Bright** forces the backlight to remain bright before turning off.

**Set Keypad Duration**
From **Backlighting**, select **Keypad Duration** and one of the following:
  - **Off** forces the backlight to remain dim before turning off.
  - **7 Seconds, 10 Seconds, 15 Seconds, 30 Seconds, or 60 Seconds** turns backlighting on for the set time after your last keypress.
  - **Same as Display** matches the setting for the **Display Duration**.

**Set Brightness**
1. From **Brightness**, scroll to change the brightness level.
2. Select **Save**.

**Set Language**
From **Language**, select a language.

**Set Time and Date Format**
From **Time/Date Format**, select a time and date format.
Sounds

Your phone has several settings that control the sound. You can select from a variety of ringers and adjust the volume.

Ringers

From **Ringers**, you can modify the following settings.

Set Ringers

From **Ringer Type**, select a ringer. (Scroll down the list to play the ringers.)

Enable Roam Ringer

From **Roam Ringer**, select **Enabled** to activate a specific ringer for roaming calls.

Ringer Shuffle

– **Enable Ringer Shuffle**

From **Ringer Shuffle**, select **Enable** to turn on the ringer shuffle.

– **Edit Ringer Shuffle**

1. From **Ringer Shuffle**, select **Edit**.
2. Select **Add** (to include the file in the shuffle) or **Remove** (to remove the file from the shuffle).
3. When finished, select **Options > Done**.

– **View Ringer Shuffle**

1. From **Ringer Shuffle**, select **View**. Only the files used in your shuffle appear.
2. Select **Edit** to modify the shuffle list or press the **Back** key to exit.

Set Ringer Mode

Your phone is set to make sounds when you receive calls, press keys, navigate through menus, and receive alerts (such as new messages). You can silence all sounds and set the phone to vibrate or light up when you receive calls and alerts.

From **Ringer Mode**, select one of the following:

- **Normal Sounds** rings for the incoming call or alert (in effect, returning the phone to a non-silent mode).
- **Vibrate Only** vibrates for the duration of the incoming call or other alerts.
- **Vibe Then Ring** vibrates for the first ten seconds and then rings for the remainder of the incoming call alert.
- **Lights Only** lights up for the duration of the incoming call or other alerts.

You can also press and hold the # Space key to toggle between **Vibrate Only** mode and **Normal Sounds** mode.

Note: The phone rings when attached to an external power source (such as a charger), even if all sounds have been silenced.
Volume
From Volume, you can modify the following settings.

Set Ringer Volume
1. From Ringer Volume, scroll right or left to set the ringer volume.
2. Press the OK key to save.

Set Speakerphone Volume
1. From Speakerphone Volume, scroll right or left to set the speakerphone volume.
2. Press the OK key to save.

Set Earpiece Volume
1. From Earpiece Volume, scroll right or left to set the earpiece volume.
2. Press the OK key to save.

Set Keypad Volume
1. From Key Volume, scroll right or left to set the keypad volume.
2. Press the OK key to save.

Enable Smart Volume
From Smart Volume, select Enabled to automatically adjust the volume during a call, based on surrounding noise levels.

Set Flip Sounds
1. From Flip Sounds, select Flip Open or Flip Close.
2. Select a sound. (Scroll down the list to play the sounds.)

Set Power On/Off Sounds
1. From Pwr On/Off Sound, select Power On Sound or Power Off Sound.
2. Select a sound to play when your phone powers on or off. (Scroll down the list to play the sounds.)

Keypad
From Keypad, you can modify the following settings.

Set Key Press Sounds
From Key Sounds, select Tone, Click, or Off to set the sounds you hear when pressing the keypad.

Set Key Tone Length
From Key Length, select Normal or Long to set the length of the keypad tone.
Voice Features
Use the following features to customize the voice commands.

Enable Automatic Add
From **Automatic Add**, select **Enabled** to automatically add a contact to your voice dial list when you create a new contact.

Set Expert Mode
Use **Expert Mode** to speak a command after you hear a tone instead of following the initial voice prompts.
From **Expert Mode**, select one of the following:
- **Normal** sets the phone to default voice prompts.
- **Expert** sets the phone to sound tones instead of voice prompts.

Set Display Results
You can set the phone to display up to three voice recognition contacts when calling or searching for a contact with voice commands.
From **Display Results**, select **Single Best** or **Three Best**.

Set Digit Lengths
You can set the number of digits used for a phone number in your voice dial list.
From **Digit Lengths**, select one of the following options:
- **North American** recognizes only 7, 10, and 1 + 10 digits in a phone number.
- **Permit All** allows 4-14 digits in a phone number.

Voice Answer
Enable Voice Answer
You can set your phone to answer a call with your voice when using a hands-free accessory.
1. From **Auto-Answer**, select **Disabled**.
2. From **Ringer Mode**, select **Normal Sounds**.
3. From **Headset Sounds**, select **Out of Headset**.
4. From **Voice Answer**, select **With Accessory**.

Answer Using Voice Answer
When you receive an incoming call, the phone prompts “Incoming call, answer?” With the caller recognized as a contact entry in your phone, the phone prompts “Incoming call from (Name), answer?” Do one of the following:
- Say “Yes” or press any key except the **End** key to answer the call.
- Say “No” or press the **End** key to ignore the call.
- Remain silent. The voice alert repeats twice and the phone rings once before returning to the home screen.
Use Voice Training
If your phone has trouble recognizing your voice, you can train your phone to recognize your specific voice for numbers.
1. From Voice Training, read the message and select OK > Train Numbers > OK.
2. Follow the prompts for each number until training is complete.
Note: You must read the numbers digit by digit for voice training to work.

Accessories
Set Headset Sounds
With a headset attached to your phone, you can play the ringer through the headset or phone speaker.
From Headset Sounds, select Out of Phone (ringing from the phone speaker) or Out of Headset (ringing from the headset).

Enable Auto-Answer
From Auto-Answer, select After 5 Seconds. The phone automatically answers after five seconds with a headset attached.

Set Com Port Speed
From Com Port Speed, select a data rate at which your phone connects to a laptop or PC. Check with your service provider for details.

Connect to TTY Device
You can connect the phone to a teletype (TTY) device for the hearing impaired. (TTY device sold separately.)
Note: Enable TTY only when using the phone with a TTY device.
1. Connect the TTY device to your phone.
2. From TTY Device, select OK to clear the notification.
3. Select one of the following:
   – TTY Off disables TTY.
   – TTY On enables TTY devices.
   – TTY On + Talk enables TTY devices and voice carry over.
   – TTY On + Hear enables TTY devices and hearing carry over.
Note: You can also enter ##889 with your keypad and select TTY to enable TTY.

Connect to Hearing Aid Device
With a T-coil hearing aid device (sold separately) connected, you can enable the hearing aid feature.
1. Connect the T-coil hearing aid device to your phone.
2. From T-coil Hearing Aid, select OK > Enabled.
Network

Enable Privacy Alert
From Privacy Alert, select Enabled to set your phone to alert you when enhanced digital CDMA privacy is lost or regained.

Enable Voice Privacy
From Voice Privacy, select Enhanced to use enhanced digital CDMA privacy.

Enable Roaming Service Alert
Use this setting if you want the phone to alert you when you roam outside of your home service area.
From Roam/Svc Alert, select one of the following:
- Disabled turns roaming service alert off.
- When No Svc alerts you with three tones decreasing in pitch when service is lost and three tones increasing in pitch when service is acquired again.
- On Roam Change alerts you with two decreasing tones when roaming service is acquired and three increasing tones when home area service is acquired again.
- On Any Change alerts you with three increasing tones if there is a change in roaming service or three decreasing tones if the phone loses service.

Set Roaming Restrictions
You can restrict your phone from making a call when roaming.
From Roam Option, select Automatic (to allow roaming) or No Roaming (to disallow roaming).

Set Phone Line
Your phone can have two service accounts, or phone lines, associated with it. Each phone line has its own phone number.
Note: You must first establish a second phone line with your service provider. Once established, a second phone number becomes available in the menu for selection.
From Set Phone Line, read the note and select OK and one of the phone lines.
When using one line, you cannot receive calls from the other. It would be as if the phone were “off” for that number. Your voicemail, however, still takes messages. All contacts and settings are shared for both lines.

Set Location Information
Use Location to share your location information with network services other than emergency services (for example, 911, 111, 999 and 000) in serviced areas. This feature works only when your phone is in digital mode. You do have the option of turning off the locator to emergency services.
From **Location**, select one of the following:
- **911 Only** (default) shares your position information only with emergency services when you call your 3-digit emergency code.
- **Location On** shares your position information, in addition to emergency services.

**Set Web Alerts**
You can set an alert to confirm the start or end of a browser session.
From **Web Alert**, select one of the following:
- **At Start** prompts when you start a session.
- **At End** prompts when you end a session.
- **Both** prompts when you start and end a session.
- **No Prompts** sets for no prompts.

**Enable Roaming Call Alert**
You can set the phone to warn you before you answer or place a call while roaming.
**Note:** Call prompt is disabled when the phone is in Emergency Mode.
From **Roam Call Alert**, select **Enabled**.
The phone emits a distinctive ring to indicate when you are roaming during a call. To accept or place a call while roaming, you must press 1.

**Security**
This section describes the security features on your phone. You can adjust these features to prevent access to your personal information. All security features are shielded by a four-digit lock code (typically 0000 or the last 4 digits of your phone number).

**Lock Phone**

**Set Lock Phone**
With your phone locked, you can call only emergency numbers or your service provider’s customer service number. You can still receive incoming calls.
1. From **Security**, enter your four-digit lock code.
2. Select **Lock Phone > OK** and one of the following:
   - **Lock Now** locks the phone immediately.
   - **On Power Up** locks the phone every time you turn it on.

**Unlock the Phone**
1. From the home screen, select **Unlock**.
2. Enter your four-digit lock code.
Set Limit Calls
You can limit the calls that can be made from your phone to emergency numbers, your contacts, and your service provider’s numbers.
1. From Security, enter your four-digit lock code.
2. Select Limit Calls and one of the following:
   – **No Limit** does not limit calls.
   – **Limit Outgoing** limits outgoing calls while incoming calls still work.
   – **Limit All** limits both incoming and outgoing calls.

Change Lock Code
Change your lock code from the default.
1. From Security, enter your four-digit lock code.
2. Select New Lock Code > Yes.
3. Enter a new four-digit code.
4. Re-enter your new lock code.

Check Memory Status
From Memory Status, check how much memory is being used by your phone.

Phone Info

View Version Information
Select **Build Info** to check your phone’s software and hardware information.

View Phone Icons
Select **Icon Keys** to view the icons used in your phone.

Access Phone Help
From **Phone Help**, access the help for your phone.
Use **Messaging** to send, receive, and erase messages from your phone.

## Messaging Menu
Select **Messaging** from the main menu to access the following functions:

<table>
<thead>
<tr>
<th>Level 1 &gt;</th>
<th>Level 2 &gt;</th>
<th>Level 3</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Messaging</strong></td>
<td><strong>New Text Msg</strong></td>
<td>Compose a text message.</td>
</tr>
<tr>

<tr>
<td><strong>Message Count</strong></td>
<td>Check how many messages you have.</td>
<td></td>
</tr>
</tbody>
</table>

**Note:** The menu items on your phone can change depending on the options provided by your service provider. Check with your service provider.
Send Messages

Create a Text Message
You can only send text messages to phone numbers capable of receiving them or to email addresses if supported.

1. From **New Text Msg**, enter a recipient’s phone number or email address. (Select **Options** to access contacts, groups or recently used addresses. Scroll down to move to the next field when done.)
   You can message up to ten recipients at once. Use comma or spaces to separate addresses.
2. Enter the message. (Select **Options** to access more features.)
3. When done, select **Send**.

Create a Multimedia Message
You can only send multimedia messages to phone numbers capable of receiving them or to email addresses. If the character and file size limit for a single multimedia message is exceeded, the message must be edited to meet the size limitation.

**Note:** Multimedia messaging is not available on all phones. Check with your service provider.

1. From **New Pic Msg**, enter a recipient’s phone number or email address. (Select **Options** to access contacts, groups or recently used addresses. Scroll down to move to the next field when done.)
   You can message up to ten recipients at once. Use comma or spaces to separate addresses.
2. Repeat the first step for CC and BCC, if needed.
3. Enter a subject.
4. Enter a message.
5. Attach an image file. (Select **Options** to access more features.)
6. Attach a sound file. (Select **Options** to access more features.)
7. When done, select **Send**.

Receive Calls while Creating Messages
If you receive a call while creating a message a notification appears. Do one of the following:

- Select **Ignore** to ignore the call and return to the message screen.
- Press the **Send** key to answer the call and your phone automatically saves the message to **Drafts**.
Enter Message Recipients
The following describes how to add recipients to your messages, depending on the services provided. Check with your service provider for availability.

Add Recipients from Contacts
1. At the compose message screen, select \textbf{Options > Contacts} when entering a phone number or email address.
2. Select a contact from the contacts list.
3. Select a number or address.
4. Complete your message.

Add Recipients from Recent List
1. At the compose message screen, select \textbf{Options > Recent List} when entering a phone number or email address.
2. Select a number or address.
3. Complete your message.

Add Recipients from Recent Calls
1. At the compose message screen, select \textbf{Options > Recent Calls} when entering a phone number or email address.
2. Select a number.
3. Complete your message.

Send to Groups
1. At the compose message screen, select \textbf{Options > Groups} when entering a phone number or email address.
2. Select a group.
3. Complete your message.

Save Recipients as Contacts
1. At the compose message screen, select \textbf{Options > Save Address} when entering a phone number or email address.
2. Select a number or address.
3. Select \textbf{Options > Save New Contact} (to create a new contact) or \textbf{Options > Add to Contact} (to add the number or address to an existing contact).

Add Recipients from Message Text
1. At the compose message screen, select \textbf{Options > Add Address} when entering the text to add more recipients.
2. Enter a number or address to add.
3. Complete your message.

Send Messages to Online Location
1. At the compose message screen, select \textbf{Options > Online Album} when entering a phone number or email address to upload the message to your online photo album.
2. Complete your message.
Save Messages to Drafts
At the compose message screen, select Options > Save Message when entering the text. Your phone saves the message to Drafts for you to complete at a later time.

Complete Messages in Drafts
1. From Drafts, highlight your desired message.
2. Select Edit or Options > Edit.
3. Complete your message.

Use Preset Text

Add Preset Text
1. At the compose message screen, select Options > Insert QuickText when entering the text.
2. Select a preset text entry.
3. Complete your message.

Save Messages as Preset Text
1. At the compose message screen, select Options > Save as QuickText when entering the text to use it later as preset text.
2. Complete your message.

Save Received Messages as Preset Text
When viewing a received message, select Options > Save as QuickText to use it later as preset text.

Attaching Files to Messages
The following describes how to select Options to add various files to your messages when entering the text, depending on the services provided.

Add Memos to Messages
1. At the compose message screen, select Options > Insert Note when entering the text.
2. Select a memo.
3. Complete your message.

Add Contacts to Messages
1. At the compose message screen, select Options > Insert Contact when entering the text.
2. Select a contact from your contacts list.
3. Complete your message.

Add Slides to Messages
Use slides in a multimedia message to send multiple files of the same type, such as pictures or voice memos. A multimedia message may have up to ten slides.

1. At the compose message screen, select Options > Add New Slide when entering the text.
2. Select a slide and add more files or text if needed.

To navigate through the slides, select Options > Next Slide or Previous Slide.
To erase the current slide, select **Options > Erase Slide**.

3. Complete your message.

You can only attach a limited number of files.

**Add Media Files to Messages**

1. At the compose message screen, select **Options > Media Gallery** when adding a media file.
2. Select a file to add to your message.
   To remove a media file, select the applicable option. For example, to remove a sound, select **Options > Remove Sound**.
3. Complete your message.

**Take Pictures for Messages**

1. At the compose message screen, select **Options > Take a Picture** when adding an image.
2. Take a picture.
3. Select it to add to your message.
4. Complete your message.

**Record Sounds for Messages**

1. At the compose message screen, select **Options > Record Sound** when adding a sound.
2. Record a sound.
3. Select it to add to your message.
4. Complete your message.

**Set Writing Language**

1. At the compose message screen, select **Options > Writing Language** to change the language you compose your message in.
2. Complete your message.

**Preview Messages**

1. At the compose message screen, select **Options > Preview Message** when editing the message or media file.
2. Do one of the following:
   - If the message has more than one slide, select Next to view the next slide.
   - If the message has only one slide, select Send to send message.
   - Select Options to access more features.

**Set Individual Message Settings**

The following describes how to set message settings for individual messages.

**Note:** Your selection of each of the following message settings overrides that selected for all messages from **Msg Settings**.

**Request a Message Receipt**

1. When entering a message, select **Options > Msg Settings > Msg Receipt > Request** to request a message delivery notice.
2. Complete your message.
Set Message Priority
1. When entering a message, select **Options > Msg Settings > Set Priority** to set the priority level.
2. Complete your message.

Change the Callback Number
1. When entering the message, select **Options > Msg Settings > Callback Number**.
2. Enter your callback number and select **OK**.
3. Complete your message.

Send Messages Later
1. When entering a message, select **Options > Msg Settings > Send Later**.
2. Select **Immediate** or **Set Time** to set a specific time to send the message.
3. Press the **OK** key to change the time.
   - Scroll left or right to move between the hour, minute, and AM/PM.
   - Scroll up or down to change the hour, minute, and AM/PM.
4. Select **Next**.
5. Press the **OK** key to change the date.
   - Scroll left or right to move between the month, day, and year.
   - Scroll up or down to change the month, day, and year.
6. Select **Done**.
7. Complete your message.

Set the Validity Period
1. When entering a message, select **Options > Msg Settings > Validity Period**.
2. Select **Set Time** to set how long to keep your message valid before removing it from the phone if not sent.
3. Press the **OK** key to change the time.
   - Scroll left or right to move between the hour, minute, and AM/PM.
   - Scroll up or down to change the hour, minute, and AM/PM.
4. Select **Next**.
5. Press the **OK** key to change the date.
   - Scroll left or right to move between the month, day, and year.
   - Scroll up or down to change the month, day, and year.
6. Select **Done**.
7. Complete your message.

Set the Slide Interval
1. When entering the message, select **Options > Msg Settings > Slide Interval**.
2. Select a time interval for the slides.
3. Complete your message.

Set CC and BCC Fields
1. When entering the message, select **Options > Msg Settings > CC and BCC** to enable or disable the CC and BCC address fields.
2. Complete your message.
Manage Received Messages

Reply to Text Messages
When receiving a message, your phone displays a notification and the message icon appears at the top of your screen. The message icon flashes with an urgent message alert if the message is urgent.

1. When a message notification appears, select Inbox (to view the message) or Ignore (to clear the notification).
   An icon appears at the top of your screen when you have an unread message.
2. From Inbox, highlight a message and select View > Reply (to compose your message) or Options (to access more features).
3. Complete your message and select Send.

Reply to Multimedia Messages (with Auto Retrieve)
When receiving a message in auto retrieve mode, your phone automatically downloads it with a notification.

Note: If receiving a message during a call, the phone downloads the message after the call.
1. At a message notification, select View (to view the message) or Later (to check it later).
2. After viewing the message, select Reply or Options > Reply if the message has more than one slide.
   Select Options to access more features.
3. Complete your message and select Send.

Reply to Multimedia Messages (with Prompt)
When receiving a message in prompt mode, your phone displays a notification showing a new message is available for download.
1. At the download notification, select Yes (to download the message) or Options (to retrieve it later or erase it without downloading).
2. At the message notification, select View (to view the message) or Later (to check it later).
3. Select Reply or Options > Reply if the message has more than one slide.
   Select Options to access more features.
4. Complete your message and select Send.
   Select Options to access more features.

Forward Messages
1. When viewing a received message, select Options > Forward.
2. Enter a number or address.
3. Complete your message and select Send.

Reply to all Recipients
1. When viewing a received message, select Options > Reply All to send your reply to all the message recipients.
2. Complete the message and select Send.
Reply with a Copy of the Message
1. When viewing a received message, select **Options > Reply with Copy**.
   The original message appears in your reply message.
2. Complete your message and select **Send**.

Call Sender
When viewing a received message, select **Options > Call** to call the sender.

Save Received Messages
When viewing a received message, select **Options > Save Message** to save it to **Saved Msgs**.

View Recipients
When viewing a received message, select **Options > Recipients** to check all recipients of the message.

View Sender Information
When viewing a received message, select **Options > Sender** to view an existing contact, add to an existing contact, or create a new contact depending on the sender.

Lock Messages
When viewing a received message, select **Options > Lock Msg** to protect it from accidental deletion. To unlock the message, select **Options > Unlock Msg**.

Sort Messages in Inbox
1. From **Inbox**, select **Options > Sort**.
2. Select a sort option.

Go to Web Addresses in Messages
When viewing a received message, select **Options > Launch Browser** to go to a web address included in the message.

Manage Attached Files

Play Attached Files
When viewing a received message with files attached, select **Options > Play** (to play an attached file), **Stop** (to stop playing), or **Mute** (to turn off the sound).

Save Attached Files
When viewing a received message with files attached, select the applicable save option to save the attached files, including graphics, sounds, contacts (vCard), or events (vCal). For example, to save a contact, select **Options > Save Contact**.

View Messages with Multiple Slides
When viewing a received message containing multiple slides, use the following options to navigate through the slides.
- **Next** to view the next slide.
- **Options > Replay** to restart the message from the beginning slide.
- **Options > Pause** to pause at the current slide.
Options > Resume to resume playing the slides.
Options > Done to exit the message.

View Message Information
When viewing a received message, select Options > Message Info to view the message priority, sent time, size, etc.

Replay Messages
When viewing a received message, select Options > Replay to restart the message (including a slide or sound if contained) from the beginning.

Manage Voicemail

Configure your Voicemail
Before your phone can receive voicemail messages, you need to set up a password and record a personal greeting with your service provider.
When you have set up your voicemail, all unanswered calls to your phone are automatically transferred to voicemail, even if your phone is in use or turned off.
1. Press and hold the 1 key.
2. Follow the system prompts to create a password and record a greeting.

Check your Voicemail
When you receive a voicemail message, a notification with a voicemail message icon appears at the top of your screen.
- At the voicemail notification, select Call to call your voicemail number and follow the system prompts to retrieve the message. Select Ignore to clear the notification without checking messages. The notification icon remains on top of the screen until you listen to the message.
- When only the voicemail message icon appears on top of the screen, select Voicemail and follow the system prompts to retrieve the message.

Manage Sent Messages

Check Message Status in Sent Folder
Use the following symbols to check the Sent folder for the status of messages successfully sent.

<table>
<thead>
<tr>
<th>Symbol</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>📨</td>
<td>The scheduled message will be sent at the scheduled time. You cannot cancel delivery of the message.</td>
</tr>
<tr>
<td>☑️</td>
<td>The message was sent. You cannot cancel delivery of the message.</td>
</tr>
<tr>
<td>☑️</td>
<td>The message has been received.</td>
</tr>
<tr>
<td>☑️</td>
<td>The message has been sent to more than one recipient.</td>
</tr>
</tbody>
</table>
Check Message Status in Outbox
Use the following symbols to check your Outbox for the status of messages sent but still in process.

<table>
<thead>
<tr>
<th>Symbol</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>🔄</td>
<td>The message is pending and will be sent when possible. You can cancel delivery of the message.</td>
</tr>
<tr>
<td>✗</td>
<td>The message cannot be sent because service is not available. An alert appears on your phone if the message cannot be sent.</td>
</tr>
</tbody>
</table>

Unable to Send Messages
You may not be able to send or receive messages if your phone’s memory is nearly full, or if digital service is not available at the time. To free up memory, erase old messages. See “Erase Messages” on page 62.

Appended Messages
If you go over the character limit for a single message, the phone may automatically append an empty segment to your message to make space.

Warning: Your service provider may charge you for each message segment.

When you start a message, the maximum character limit appears once you are in the message entry field. This number counts down as you enter characters, until it reaches 0. If you continue to enter text after this counter reaches 0, a message segment may be appended. When you reach the message size limit, you are prompted to edit the message or alerted that the message is being appended.

Note: Appended messages may not be available on all phones. Check with your service provider.

Manage Browser Alerts
1. From Browser Alerts, select an alert.
2. Select Connect to launch the browser.

Message Settings
The following message settings affect all messages unless you change them for individual messages.

Set Message Alerts
1. From Alerts, select Msg Alert.
2. Select an alert for messages.
If you select an & Remind alert, the phone notifies you once when receiving a new message and notifies you again every five minutes. To stop a reminder alert, select Ignore.

Set Page Alerts
1. From Alerts, select Page Alert.
2. Select an alert for pages.
If you select an & Remind alert, the phone notifies you once when receiving a new message and notifies you again every five minutes. To stop a reminder alert, select Ignore.
Set Voicemail Alerts
1. From Alerts, select Voicemail Alert.
2. Select an alert for voicemails.
If you select an & Remind alert, the phone notifies you once when receiving a new message and notifies you again every five minutes. To stop a reminder alert, select Ignore.

Set Chat View
From Chat View, select Conversation to group sent and received messages by contact, phone number, or address. To view messages in the order they are received or sent, select Classic.

Set Message List View
From Msg List View, select one of the following to set your message list display:
• Sender & Preview displays the sender and first part of messages.
• Sender & Date-Time displays the sender and sent time of messages.
• Msg Preview displays the first part of messages.
• Sender displays the message sender.

Set your Signature
You can create a signature to appear at the end of all outgoing messages.
1. From Signature, enter your signature.
2. Select OK to save the signature.
Note: The signature counts towards the character limit of your message.

Edit Preset Messages
Your phone comes with preset messages, such as “Please call me,” which you can insert into the body of a text message. You can edit or create up to 40 preset messages.
1. From QuickText, do one of the following:
   – Scroll to a preset message and select Edit.
   – Select New Msg to create a new preset message.
2. Enter or edit the text.
3. Select Save.
Note: You can also save messages you have written or received as preset messages.

Enable Auto Retrieve
From Auto Retrieve, select one of the following:
• Disabled turns off auto retrieve and prompts you before downloading any multimedia messages.
• Enabled turns on auto retrieve to automatically download multimedia messages.

Enable CC/BCC Fields
From CC and BCC, select Disabled (to hide the CC and BCC fields) or Enabled (to show them).
Set Callback Number
1. From **Callback Number**, enter a new number to change your default callback number.
2. Select **OK** to save the number.

Enable Save to Sent
From **Save to Sent**, select **Enabled** to automatically save outgoing messages to the **SentMsgs** folder.

Enable Auto-Erase
Use **Auto-Erase** to set your phone to erase messages automatically when it needs memory for incoming messages.

From **Auto-Erase**, select one of the following:
- **Disabled** erases no messages.
- **Inbox Msgs** erases old messages in **Inbox** when memory is needed.
- **Sent Msgs** erases old messages in **Sent Msgs** when memory is needed.
- **Both** erases old messages in both **Inbox** and **Sent Msgs** when memory is needed.

Set Default Text
You can change the default text entry mode when creating a text message. This setting applies only to the Message field, not the Send To field.

From **Default Text**, select **Normal Alpha** (to enter text letter by letter) or **Rapid Entry** (to enter text with word recognition).

Request Text Message Receipts
From **Text Msg Receipt**, select **Request** to request a notification when a recipient has received your text message.

Request Multimedia Message Receipts
From **Pic Msg Receipt**, select **Request** to request a notification when a recipient has received your multimedia message.

Set your Voicemail Number
Often your service provider automatically programs your voicemail number (the number your phone calls to retrieve voicemail). To change it:
1. From **Voicemail Number**, select **Edit**.
2. Enter your voicemail number. (Use **Options > Time Pause** or **Hard Pause** to enter pauses.)
3. Select **Save**.

Erase Recent List
From **Erase Recent List**, select **Yes** to clear the list of recipients you have recently sent messages to.

Erase Messages
Erasing old messages frees up memory in your phone. You can erase messages as you send or read them, erase them one at a time, or erase them all at once.
Erase a Single Message
When viewing a received message, select Options > Erase > Yes.
Note: You can erase a scheduled message, but cannot cancel its delivery.

Erase Messages from a Folder
From Erase Msgs, select a folder to erase messages from. For example, to erase received messages, select Inbox > Yes.
Note: You cannot recover deleted information.

Erase All Messages
From Erase Msgs, select All > Yes to erase all messages from all folders, except for voicemail messages.
Note: You cannot recover deleted information.

Check Message Count
From Message Count screen, check how many messages you have stored.
Camera Tips

Your phone has a camera. Before using your phone’s camera, here are some tips:

- You cannot activate the camera while on an active call or while browsing the Internet.
- Once the camera is active, the home screen acts as the viewfinder.
- If you get a “Low memory” error, check your resolution and quality compression settings.
- If there is no activity within 30 seconds after you turn your camera on, the camera times out and returns to the previous launch point.
- Menu settings and options can only be accessed when the camera is active.
- Numbers in the top right corner indicate the number of snapshots remaining before the phone runs out of memory.

Take a Picture

1. To activate the camera, press and hold the Camera key. You can also select Camera from the main menu.
2. Focus on the image using the phone’s display as a viewfinder.
3. To take a picture, press the OK key. The picture is saved to Camera Pictures.
4. Select Send > Via MMS (to attach to a multimedia message), Via Bluetooth (to send to a Bluetooth-enabled device), or To Printer (to print on a Bluetooth-enabled device). Select Erase to delete the picture from your phone.
5. Press the End key to exit camera mode.

Note: If your phone has no Bluetooth feature, you may send the file with a message only.

Camera Options

Camera Settings

Adjust the Resolution
From camera mode, select Options > Settings > Resolution and a size for your pictures. Numbers in the bottom left corner indicate the current resolution setting.

Set Self Timer
From camera mode, select Options > Settings > Self Timer and a time. The icon indicates the timer is activated. When you take a picture, a beep plays three seconds from the time the shutter snaps the picture.
Enable Date/Time Stamp
From camera mode, select **Options > Settings > Date/Time > On** to place a date/time stamp on each picture taken. The 📅 icon indicates when the date/time stamp is on.

Enable Multishot Mode
From camera mode, select **Options > Settings > Multishot > On** to take multiple pictures. The 📸 icon indicates multishot mode is enabled. When you take a picture, press and hold the OK key to take multiple pictures. A single tone plays for each picture taken. Your camera is set to a lower resolution during multishot mode. The resolution setting returns to the previous setting when you are done.

Set Shutter Sound
1. From camera mode, select **Options > Settings > Shutter Sound**.
2. Select a sound to play when the shutter takes a picture.

Set White Balance
1. From camera mode, select **Options > Settings > White Balance**.
2. Scroll left or right to select the white balance setting. Look at the display to see how each setting looks.

Set Color Tone
1. From camera mode, select **Options > Settings > Color Tone**.
2. Scroll left or right to select a color tone. Look at the viewfinder to see how each setting looks.

Set Picture Quality
From camera mode, select **Options > Settings > Picture Quality** and a quality level for your picture.
When you select a higher quality level, the size of the file is bigger.

Set Brightness Level
1. From camera mode, select **Options > Brightness**.
2. Scroll left or right to change the brightness level. Press the OK key to set the brightness.

Go to Camera Pictures
From camera mode, select **Options > Camera Pictures** to see all of the pictures you have taken. These are located in Camera Pictures.

Take a Picture in a Frame
1. From camera mode, select **Options > Frames**.
2. Scroll left or right to view the frames available.
3. Select OK to choose a frame.
4. Take a picture with the frame. The frame is part of the image and can not be removed.
## 10 Tools

### Tools Menu
Select **Tools** from the main menu to access the following functions:

<table>
<thead>
<tr>
<th>Level 1 &gt;</th>
<th>Level 2 &gt;</th>
<th>Level 3</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Tools</strong></td>
<td><strong>Voice Memo</strong></td>
<td>Access these options: <strong>Record New</strong> and <strong>Recorded Memos</strong>.</td>
</tr>
<tr>
<td></td>
<td><strong>Scheduler</strong></td>
<td>Schedule an appointment.</td>
</tr>
<tr>
<td></td>
<td><strong>Alarm Clock</strong></td>
<td>Set an alarm.</td>
</tr>
<tr>
<td></td>
<td><strong>Tip Calculator</strong></td>
<td>Calculate a tip.</td>
</tr>
<tr>
<td></td>
<td><strong>Calculator</strong></td>
<td>Perform basic calculations.</td>
</tr>
<tr>
<td></td>
<td><strong>Timer</strong></td>
<td>Set a countdown timer.</td>
</tr>
<tr>
<td></td>
<td><strong>Stopwatch</strong></td>
<td>Use a stopwatch timer.</td>
</tr>
<tr>
<td></td>
<td><strong>World Clock</strong></td>
<td>View times from different time zones.</td>
</tr>
<tr>
<td></td>
<td><strong>Memopad</strong></td>
<td>Access these options: <strong>New Memo</strong> and <strong>View Memos</strong>.</td>
</tr>
</tbody>
</table>

### Voice Memo
Use **Voice Memo** to record and play back audio memos.

**Record Voice Memos**
1. From **Voice Memo**, select **Record New**.
2. Record your voice memo and select **Stop** when done.
3. Select **Save**.
   If you receive an incoming call while recording a memo, the memo is saved and the incoming call screen appears.

**Play Voice Memos**
1. From **Recorded Memos**, highlight a memo.
2. Select **Play** to play the memo or **Options** to access more features.
Scheduler

Use Scheduler to schedule events and set reminder alerts.

Create an Event
1. From Add New Event, enter a name. Scroll down to move to the next field when done.
2. Press the OK key to select an event type from the list.
3. Press the OK key to change the date, if needed.
   - Scroll left or right to move between month, day, and year fields.
   - Scroll up or down to change month, day, and year.
Press the OK key to save and move to the next field.
4. Press the OK key to change the time, if needed.
   - Scroll left or right to move between hour, minute, and AM/PM fields.
   - Scroll up or down to change hour, minute, and AM/PM.
Press the OK key to save and move to the next field.
5. Press the OK key to change the duration, if needed.
   - Scroll left or right to move between hour and minute fields.
   - Scroll up or down to change hour and minute.
Press the OK key to save and move to the next field.
6. Press the OK key to select a priority from the list.
7. Press the OK key to select a reminder from the list.
8. Press the OK key to select a reminder sound from the list.
9. Press the OK key to select During Event to enable silent mode or Off to have normal sounds.
10. Press the OK key to select a recurring event from the list, if needed.
11. Select Save.

View Events

View Events by Month
1. From View Month, scroll through the month view. (Days with events are highlighted.)
2. Press the OK key to select a date.
3. Do one of the following:
   - Scroll left or right to move to another date.
   - Select an event.
   - Scroll to a time and select Add New to create a new event.
   - Select Options to access more features.
View Events by Date
From View Day, do one of the following:
• Scroll left or right to move to another date.
• Select an event.
• Scroll to a time and select Add New to create a new event.
• Select Options to access more features.

Go to a Specific Date
1. From Go to Date, scroll left or right to move between month, day, and year fields. Scroll up or down to change month, day, or year.
2. Press the OK key to select the date.

View Events by List
From View All Events, select an event from the list or Options to access more features.

Return to the Current Date
From View Day, select Options > Go to Today to return to the current date.

Sort Events by Time
From View All Events, select Options > Sort by Time to sort events by time.

Sort Events by Type
From View All Events, select Options > Sort by Type to sort events by their assigned type.

Sort Events by Priority
From View All Events, select Options > Sort by Priority to sort events by their assigned priority.

Modify Events

Edit an Event
1. From View Day, select an event.
2. At the event details screen, select Options > Edit.
3. Modify the event and select Save.

Send an Event
1. From View Day, select an event.
2. At the event details screen, select Options > Send > Via MMS (to attach the file to a multimedia message), Via Bluetooth (to send the file to a Bluetooth-enabled device), or To Printer (to print the file on a Bluetooth-enabled device).
3. Complete the appropriate task.
Note: If your phone has no Bluetooth feature, you may only send the file with a message.

Copy an Event
1. From View Day, select an event.
2. At the event details screen, select Options > Copy.
3. Enter a new name for the event.
4. Complete the event and select Save.
Erase Events

Erase an Event
1. From View Day, select an event.
2. At the event details screen, select Options > Erase > Yes.

Erase the Current Day’s Events
From View Day, select Options > Erase Today’s Events > Yes to erase all events on that day.

Erase All Events
From View All Events, select Options > Erase All Events > Yes to erase all events from the phone.
Note: You cannot recover deleted information.

Erase All Past Events
From View All Events, select Options > Erase All Past Events > Yes to erase all past events from the phone.
Note: You cannot recover deleted information.

Change Scheduler Settings
From Settings, you can modify the following features.

Set Scheduler Hours
1. From Scheduler Hours, modify the start and end times.
   - Scroll left or right to move between hour, minute, and AM/PM fields.
   - Scroll up or down to change hour, minute, and AM/PM.
2. Select Save when done.

Erase Events Automatically
From Auto Erase, select an option from the list to set when to automatically erase your past events.

Set Event Priority
From Priority, select an option to set every event you create with this priority type.

Set Event Reminder
From Reminder, select an option to set every event you create with this reminder setting.

Set Event Reminder Alert
From Reminder Sound, select an option to set every event you create with this reminder alert. (Scroll to listen to sounds.)

Set Event Silent Mode
From Silent Mode, select an option to set every event you create with this silent mode.
**Alarm Clock**

You can set up to four alerts with your phone’s three alarm clocks and one quick alarm.

**Note:** The alert occurs only if the phone is on.

**Set an Alarm**

1. From **Alarm Clock**, scroll to one of the alarms and select **Set**.
2. Press the **OK** key to change the time, if needed.
   - Scroll left or right to move between hour, minute and AM/PM fields.
   - Scroll up or down to change hour, minute and AM/PM.
3. Press the **OK** key to select a sound from the list.
4. Press the **OK** key to select a recurring alarm from the list, if needed.
5. Press the **OK** key to enter a note.
6. Select **Save**.

When the alarm rings, select **Stop** to turn off the alarm or **Snooze** to set the alarm to ring in another ten minutes.

**Set the Quick Alarm**

1. From **Alarm Clock**, scroll to the quick alarm and select **Set**.
2. Choose a time. (A notification shows the quick alarm is on.)

When the quick alarm rings, select **Off** to turn off the alarm, or **Reset** to set the quick alarm again.

**Change Alarm Clock Settings**

From **Settings**, you can modify the following features.

**Set Snooze Duration**

From **Snooze Duration**, select an option to set how long before the alarm goes off again when you hit the snooze.

**Set Snooze Limit**

From **Snooze Limit**, select an option to set how many times you can hit the snooze.

**Use Tip Calculator**

1. From **Tip Calculator**, enter the amount of your bill.
2. Select the percentage you want to tip.
3. Enter the number of people sharing the bill (or enter 1 if paying the entire bill).
4. Select **Next** to view the final bill.
5. Select **Done** when finished.
Use Calculator

1. From **Calculator**, enter the first number.
2. Select a mathematical operation:
   – Scroll left to multiply.
   – Scroll right to divide.
   – Scroll up to add.
   – Scroll down to subtract.
   Your selection will appear highlighted.
3. Enter the second number, and press the **OK** key to view the result.
4. Select **Exit** to return to the menu, or **Options** and one of the following:
   – **Square** squares the entered value.
   – **Square Root** shows the square root of the entered value.
   – **Cube** cubes the entered value.
   – **MS** replaces the value currently stored in memory with the displayed result on the screen.
   – **M+** adds displayed result on the screen to the value currently stored in memory.
   – **MR** displays value currently stored in memory on the screen.
   – **MC** clears value currently stored in memory.

Use Timer

The timer counts down for the specified time. It beeps when that amount of time has elapsed.

1. From **Timer**, select **Set**.
2. Enter the time length.
   – Scroll left or right to move between hours, minutes, or seconds fields.
   – Scroll up or down to change hours, minutes, or seconds.
3. Select **Sound**, and choose from the list to modify the sound.
4. To work the timer, select from the following options:
   – **Start** begins the countdown.
   – **Stop** pauses the countdown.
   – **Reset** clears the timer.

When the countdown is complete, select **Off** to silence the alarm.

Use Stopwatch

From **Stopwatch**, select from the following options:

- **Start** begins counting.
- **Stop** pauses counting.
- **Reset** clears the stopwatch.

Press the **Back** key to exit.
World Clock
Use World Clock to check times in cities around the world in relation to your local time.

Set World Clock
1. From World Clock, first scroll left or right to select a time zone.
2. Check your local time and date on the first line, followed by your selected world city and its time and date.

Search World Clock
1. From World Clock, select Options > Search City or Search Country.
2. Enter the first letter(s) of your desired city or country.
3. Select a city or country from the list.

Memopad
Write a Memo
1. From New Memo, enter the memo.
2. Select Save.

View a Memo
From View Memos, select View to open a memo or Options to access more features.

Edit a Memo
1. From View Memos, highlight a memo.
2. Select Options > Edit.
3. Edit the memo, and select Save.

Send a Memo
1. From View Memos, highlight a memo.
2. Select Options > Send as SMS.
3. Complete the message, and select Send.

Call a Number in a Memo
If you have a phone number in a memo, you can call it.
1. From View Memos, highlight a memo.
2. Select Options > Use Numbers.
3. Select a number, and press the Send key.

Lock a Memo
You can lock a memo to prevent it from being edited or erased.
1. From View Memos, highlight a memo.
2. Select Options > Lock Memo.
To unlock a memo, select Unlock Memo.

Erase a Memo
1. From View Memos, highlight a memo.
2. Select Options > Erase > Yes.

Erase All Memos
From View Memos, select Options > Erase All > Yes.
Note: Selecting Erase All only erases unlocked memos.
11 Browser

You can use your phone to browse the Internet if you have obtained phone Internet services from your service provider and if over-the-air Internet access is available in your area.

Launch Browser
Select Browser to launch the browser. An alert appears notifying of airtime fees, if you have enabled web alerts. Select OK to continue.
If this is the first time you have connected to the Internet, a message informs you that security is not yet enabled for your browser. Select Yes to enable security.

Browse the Web
A browser home page with a list of bookmarks and some browser menu options appear when you are connected to the Web. The lock icon appears in a secure session. You can do the following:
• To choose a site, scroll to the link and press the OK key.
• An underline and an arrow indicate that there is more text. Scroll down to view the rest of the text.
• Press the Back key to return to the previous screen.
• Press the End key to exit.
• Select Options to access more browser features.

Add a Bookmark
1. Surf to the Web page you want to bookmark and select Options > Add to Bookmarks.
2. Edit the bookmark’s details, if needed.
3. Select Options > Save to save the bookmark.
To access your saved bookmarks, select Options > Bookmarks from any web page. Scroll to a bookmark and press the OK key.
**How does BREW Work?**

Your Kyocera phone has the added ability to download and manage applications through BREW.

You connect to the server, download applications, and then manage them as you like. When you choose an application, you have the option of choosing a demo, various limited use options, or the full version—all varying in price. If you choose a demo, BREW lets you know when it has expired. If you choose a priced version, the amount is added to your phone bill. BREW also lets you know if you are running out of memory. At that point, you can either disable an application or remove it completely.

Once applications are loaded, you can update to newer versions as they become available. For more information about BREW capabilities and application pricing, contact your service provider.

**Download an Application**

1. From Downloads, select Mobileshop > Catalog. When a connection is made, a list of application types appears.

2. Select an application type. A list of applications appears. Long titles scroll left as you highlight them.

3. Select an application. A list of usages appears. There may be one or more usages available. Prices are specified for each usage.

4. Select a usage for the application. You are prompted to confirm your purchase.

5. Select Yes to confirm. The application downloads to your phone. Download times may vary.

To open the application now, select Yes. If you select No, you return to Downloads, where you see a link to your new application.

**Note:** Your connection to the application server automatically ends after 30 seconds, unless you connect again to download more apps. If you want to end the connection manually, press the End key on your phone.

**Access Help for Downloads**

From Downloads, select Help to get instructions on how to run and manage your downloaded applications.
13 Voice Commands

You can execute certain commands through voice recognition. To control the settings associated with voice commands, see “Voice Features” on page 46.

Call a Contact

1. From the home screen, press and hold the Send key. The phone prompts, “Say a command”.
2. Say “Contact” and the name of the person you want to call.
   The phone prompts, “Please repeat” or “Say a name” if it does not recognize the name. If the name you spoke matches a contact in the voice dial list, the phone prompts: “Name, correct?” Say “Yes” to make the call, “No” to select a similar name, or “Cancel” to cancel the phone call.
   If the phone finds multiple voice tags that sound like the name you said, the phone will list the names. You will be asked to verify which name you want to call. Say “Yes” when you hear the correct name. Say “No” when you hear an incorrect name.
3. Press the End key to end the call.

To modify your voice dial list, see “Enable Voice Dial Tags” on page 32.

Call a Number

1. From the home screen, press and hold the Send key. The phone prompts, “Say a command”.
2. Say “Dial Number” and then speak the digits of the number you want to call. If you pause, the phone prompts you, “Did you say <number>?” or “Say a number” if it does not recognize the name. Say “Yes” to make the call, “No” to cancel the phone call.
3. Press the End key to end the call.

Use a Shortcut

1. From the home screen, press and hold the Send key. The phone prompts, “Say a command”.
2. Say the name of the menu item you want to access or say “Shortcuts” to view a list of menu items. The phone prompts, “Say one of the shortcuts”.
3. Say the name of the menu item you want to access.
Find a Contact

1. From the home screen, press and hold the Send key. The phone prompts, “Say a command”.

2. Say “Find Contact”. The phone prompts, “Say a name”.

The phone prompts, “Please repeat” or “Say a name” if it does not recognize the name. If the name you spoke matches a contact in the voice dial list, the phone prompts: “Name, correct?” Say “Yes” to display the contact, “No” to select a similar name, or “Cancel” to cancel the search.

Note: You can only search for contacts that are in the voice dial list.
14 Get Help

Phone Help
From Phone Info, select Phone Help to access the help for your phone. You can find a complete user guide at www.kyocera-wireless.com/support.

Customer Support
Your service provider’s customer support department may be accessible directly from your phone when you dial a number, such as *611 (check with your service provider). They can answer questions about your phone, phone bill, call coverage area, and specific features available to you, such as call forwarding or voicemail. For questions about the phone features, refer to the materials provided with your phone, or visit www.kyocera-wireless.com.

For additional questions, you may contact the Kyocera Communications Inc. Customer Care Center in any of the following ways:
• Email: phone-help@kyocera-wireless.com.

Before requesting support, please try to reproduce and isolate the problem. When you contact the Customer Care Center, be ready to provide the following information:
• The name of your service provider.
• The actual error message or problem you are experiencing.
• The steps you took to reproduce the problem.
• The phone’s mobile equipment identifier (MEID).

Note: From Phone Info, select Build Info. Scroll down to MEID (dec). The 18-digit number is the MEID number. If your phone uses an electronic service number (ESN), ESN replaces MEID.

Qualified Service
If the problem with your phone persists, return the phone with all accessories and packaging to the dealer for qualified service.

Phone Accessories
To shop for phone accessories, visit kyocera.superiorcommunications.com.
